Title: **Vong - Cambodia - Bachelor of Business (New Student Experience)**

Creator: Swinburne University of Technology

Year: 2026

Audio/video for this transcript available from: <http://commons.swinburne.edu.au>

VONG: My name is Vong. Currently, I'm doing Bachelor of Business and I've come from Cambodia.

The first day at Swinburne, I feel like the uni is big and I almost got lost in the first day because there's a lot of building, a place, a lot of place that students can relax and take a break as well. And for the surrounding, there's lots of supermarket, a store, a place where to eat. So I feel like it's really convenient for the students as well. We have lots of choice like from Asian food, eastern food, and many store that we can find.

For students who are considering study in Swinburne, I would say it's a fantastic place or uni to study because you will get a lot of support, and the uni has a diverse community where you can make a connection. I have joined the Cambodian Student Association, and when I have something like I'm stressful or anything, I can reach out to them and ask them, like, oh, we are family, we are friends and a place where I feel like yeah, I feel like home.

Just come and enjoy the unforgettable moment in Swinburne and experience in Swinburne because there are lots of support and friends here awaiting for you as well.
