

# CREATE A CC EXPRESS PRESENTATION FOR QUALITY IMPROVEMENTS TO HEALTHCARE

## Overview

Being able to present yourself in a technologically professional and persuasive manner is a skill required for roles and positions you may seek in the future as a registered nurse. So, in this project you will work in groups to create a 15-minute class presentation that outlines a solution to a critical issue which will improve the quality of healthcare. Your class presentation will demonstrate your use of Creative Cloud Express Webpages and your ability to persuasively communicate your solution. You will be supported to do this by working on activities in class in addition to your own self-study. Ultimately, these presentation skills will equip you for working as a registered nurse.

Creative Cloud Express will support your work as it enables you to create professional and engaging presentations.

Your presentation should include:

- relevant clinical governance strategies and an appropriate action plan that could potentially mitigate the nursing clinical risk from occurring in future.
- the integration of clinical governance principles.
- a discussion on how you are going to measure your interventions, their effectiveness, and the processes you will likely undertake if these interventions were ineffective.

Please note that Adobe Creative Cloud Express presentations submitted via a link will be accessible and potentially shared by anyone with the link.

## Supporting tools and resources

- [Student sample 1](#)
- [Students sample 2](#)
- Assessment Criteria
- Group member declaration
- [Adobe Creative Cloud Express](#)
- [Plan Do Study Act](#)

## Outline

- 1 (30 min) Read and understand this project, prepare any questions/clarifications related to the assessment and the [Plan Do Study Act \(PDSA\)](#) cycle which will underpin your strategy.
- 2 (30 min) Use the Adobe Creative Cloud Express Webpage tutorial online to learn how to use the program.
- 3 (2 hours) In class, actively participate in:
  - discussions about technology literacy
  - accessing Adobe Creative Cloud and Creative Cloud Express
  - consideration for making a professional presentation
  - creating the beginning of your project design for the Adobe Creative Cloud Express Webpage presentation
  - seeking feedback from your educator on your project design
  - asking questions/clarifications about the assessment and project design
- 4 (3 hours) Work with your group to complete your Creative Cloud Express Webpage by continuing to design and edit it. You can utilise the Adobe resources from your online learning or in-class activities to navigate unclear aspects of Adobe Creative Cloud Express Webpage.

Your Adobe Creative Cloud Express webpage should include:

- a title page
- an introduction:

- 
- include a statement of the nursing clinical quality and safety issue
  - aim – a statement of what you expect to achieve
  - the related Australian National Safety and Quality Health Service Standard (or equivalent for your region).
- the research evidence to support your choice of approach/intervention that addresses the quality and safety issue
  - the Plan, Do Study, Act cycle to guide the implementation strategy
  - facilitators and barriers to the quality improvement implementation strategy
  - evaluation methods to assess quality improvement processes and outcomes related to the approach/intervention
  - a conclusion

---

**5** You will present to class your quality improvement project and submit the Adobe Creative Cloud Express webpage.

**In your presentation:**

- introduce each member of the team and their role.
- you can use notes, however, you need to maintain eye contact with the audience.
- all members of the group need to actively participate in the creation of and delivery of the presentation.
- you must submit a signed declaration that identifies each team member's contribution to the development of the presentation.
