Swinburne University of Technology (Swinburne) has used all reasonable endeavour to ensure the information contained in this publication was correct and current at the time of publication, however Swinburne accepts no responsibility for any error, omission or defect herein. Any information contained in this publication is subject to change from time to time without notice. You are advised to reconcile the accuracy and currency of the information provided with the relevant faculty, school or department at Swinburne before acting upon or in consideration of the information.
In 2008, Swinburne celebrated 100 years since its establishment. From its beginnings as a technical college, Swinburne has grown to be one of Australia’s leading teaching and research universities.

While we are proud of our history and extensive achievements, Swinburne is a university that looks confidently to the future. We are at the beginning of a new century with a new, creative vision for our place in the world. We are committed to investing $250 million over four years to provide state-of-the-art facilities and resources for teaching and research. These include IT developments, a multipurpose student services centre, sophisticated new research equipment and a $140 million Advanced Technology Centre.

Today, Swinburne offers courses that span a spread of key disciplines, from engineering to business and biotechnology. It is one of the few Australian universities offering a clear pathway of study from apprenticeships to PhDs.

Swinburne has expanded to develop strategic partnerships in more than 30 countries, but we remain a comparatively small, personal, highly focused university committed to the pursuit of excellence in teaching and learning outcomes. Swinburne’s success in this endeavour has been consistently recognised with top rankings by the Australian Government and the Good Universities Guide.

For every generation, the future is an exciting challenge, and we embrace it with confidence in the enormous potential of education and innovation. I invite you to join with us in creating an extraordinary future, and I look forward to welcoming you to the Swinburne community.

Professor Ian Young
Vice-Chancellor and President

Welcome from the Vice-Chancellor
A century of education

Swinburne University of Technology has been educating students for over 100 years. We are a career-oriented institution where you can gain real-world experience through practical courses. Swinburne has grown into a multidisciplinary, multi-campus institution, with more than 27,000 full-time students, including 6000 international students from around the world.

Our strengths
Swinburne’s strengths are built around a solid technology base and influential links to industry, plus ground-breaking specialist research centres. We have a flexible and forward-thinking understanding of international government, education and business priorities, and are responsive to the changing needs of industry.

With a reputation for educational and research excellence, Swinburne attracts highly qualified academics and educational leaders.

A truly international university, Swinburne has developed successful relationships with universities around the world, and established Swinburne University of Technology (Sarawak campus) in Malaysia, in 2000. There is extensive collaborative research and mobility of teaching staff between Swinburne and our partner universities.

Swinburne is the only Australian university invited to be a member of the European Consortium of Innovative Universities (ECIU), which aims to foster student and staff mobility and share innovative programs to give students a competitive edge in today’s global employment market.

A range of course options
Because Swinburne offers courses in both the higher education and vocational sectors, we provide distinct advantages for our international students. Qualifications ranging from Foundation Studies, certificates, diplomas, bachelor and master courses to PhDs allow you to choose pathways to suit your individual interests and career aspirations. All Swinburne programs comply with Australian Government requirements.

Scholarships
You may be eligible for a scholarship to study at Swinburne. A range of scholarships is available, including scholarships managed by the Australian Agency for International Development (AusAID), and the Department of Education, Employment and Workplace Relations (DEEWR). For more information visit www.international.swinburne.edu.au/apply/scholarships

Study Lilydale Scholarships
Announced in 2008, Swinburne’s centenary year, the Study Lilydale Scholarships provide international students with an opportunity to experience the refreshed learning and living environment of the Lilydale campus. A Study Lilydale Scholarship reduces your course fee by 10% per annum for the duration of your degree. All students who apply to study an on-campus, single degree at Lilydale are considered for the scholarship – no separate application is required.

For more information visit www.international.swinburne.edu.au/studylilydale
Melbourne

Capital city of the state of Victoria, Melbourne is recognised as one of the world’s most liveable cities. Home to 3.8 million people, it is considered Australia’s cultural, culinary and sporting capital.

A mild climate, affordable living costs, an extensive public transport network and an abundance of parkland and public space combine to provide a great way of life.

Your community
When we ask our international students what they like most about Melbourne, they almost always say ‘the people’. It is a welcoming place where the locals are keen to help you feel at home.

There are people from over 200 countries living in Melbourne, and with more than 180 languages spoken here, it is a truly multicultural city. There are numerous ethnic community centres and groups, providing fantastic networks for newcomers.

Areas in Melbourne specialise in food from China, Vietnam, Spain, the Middle East, Greece and Italy. Supermarkets are stocked with goods from around the world – you’ll have no trouble finding the ingredients to make your favourite dishes from home.

Character, art and culture
In the city centre you can explore Melbourne’s many laneway shops, bars and cafes. Other inner-urban villages have their own character. St Kilda offers beaches, clubs, restaurants and live music venues. Carlton has an Italian feel, with coffee shops, bookshops and an art-house cinema. Prahran is the place to find trendy fashion boutiques. The historic port of Williamstown is a great place to cycle or lie on the beach.

Melbourne’s Federation Square is home to the National Gallery of Victoria’s Australian collection plus the Australian Centre for the Moving Image (ACMI). Also within the city are the Immigration Museum, the Arts Centre and many other cultural and arts venues.

Melbourne is the birthplace of Australian Rules Football, and its passion for sport is famous. Major events include the Australian Tennis Open, the Melbourne Cup horse race and the F1 Grand Prix.

Melbourne hosts a wide range of festivals for all interests, including the Melbourne International Film Festival, the International Arts Festival, Food and Wine Festival and more.

Explore Victoria
The state of Victoria is home to many wonderful natural attractions. Travelling along the Great Ocean Road to the Twelve Apostles, you can visit some of the world’s best surf spots.

On the coast to the east of Melbourne you can find Phillip Island, home of the famous Penguin Parade, or explore the untamed wilderness of Wilsons Promontory. Other areas to discover include the historical goldfields of Ballarat and Bendigo, the Dandenong Ranges and the Victorian snowfields.

See Australia!
From Melbourne you can take the overnight ferry to Tasmania, take a train or bus trip, or fly to major destinations around Australia from Melbourne’s two airports. Or you can hire a car and take a road trip with your new friends. It’s up to you!

Australia is a wonderful country. It is well-organised and incredibly multicultural, which makes it quite a unique place to study. Even though it’s a long way from my home, the people are friendly and willing to accept newcomers, which makes it a lot easier to settle in.”
The Swinburne difference

At Swinburne we don’t teach students what to think, rather how to think and how to get out and make things happen.

At Swinburne we help our students to become self-sufficient, resourceful and entrepreneurial, by providing a challenging and supportive education environment. Being a student at Swinburne is not just about coming away with a piece of paper and a list of results. It’s about getting real experience through our practical courses.

Teaching and learning quality
Swinburne’s learning environment and teaching style foster excellence at all levels.

» Swinburne has been rated the best university in Melbourne for Teaching Quality and one of the top three for Graduate Satisfaction and Generic Skills by the Good Universities Guide 2009.

» The Department of Education, Science and Training placed Swinburne’s IT, science, engineering, business and arts courses in the top tier of the Learning and Teaching Performance Fund 2008.

» For the past four years, Swinburne has been recognised by the Federal Government for ‘teaching excellence’ in the Learning and Teaching Performance Fund (LTPF), which rewards universities for outstanding performance. We are one of only nine universities that has been rewarded for excellence in all four rounds of the LTPF.

International connections
At Swinburne we ensure that our graduates are well-prepared for the international workplace.

» Swinburne is the only Australian university invited to be a member of the European Consortium of Innovative Universities (ECIU). Key goals of ECIU include fostering student and staff mobility, and sharing innovative programs that give students a competitive edge in today’s global employment market.

» One of the newest opportunities for international students to broaden their horizons is the Future Leaders Program – a multi-disciplinary tour to China that exposes students to a diverse array of organisations. www.swinburne.edu.au/abroad/study-tours/future-leaders-program

» Swinburne’s 2006 records show that 16% of our undergraduate students gain international study experience during their studies, compared with the national figure of 6% (Source: Australian Universities International Directors Forum AUIDF, 2005).

Practical courses
Swinburne courses are designed to prepare you for the workplace. They tackle real-world issues and provide hands-on learning.

Most Swinburne courses involve applied learning; classes in the studio or laboratory, case studies, excursions, teamwork, research projects, project-based assignments assessed by industry practitioners, and internships are just a few examples of the different ways we teach our students practical skills.

Swinburne’s courses are developed and regularly reviewed in consultation with industry. This ensures that in Australia alone, more than 30 professional and accrediting bodies recognise Swinburne courses.
Research excellence
Research underpins and invigorates all Swinburne activities. This is why Swinburne is committing $250 million over four years to provide state-of-the-art facilities and resources for teaching and research.

Swinburne is one of only three universities in Victoria (with the University of Melbourne and Monash University) awarded a four-star rating for Research Intensity in the 2008 Good Universities Guide.

In 2007, Swinburne recorded $14.3 million in external research income. This is almost $500,000 more than in 2006, representing a significant increase. All six faculties have been experiencing increases in research income, indicating that research momentum is growing across the university. Significant increases were also experienced in the Australian Competitive Grants category and the Public Sector Research Income category. This reflects the marked improvement in ARC grant funding in recent years.

Unique learning centres
Swinburne is home to some of Australia’s most dynamic, innovative and creative learning centres.

The National Institute of Circus Arts (NICA) on Swinburne’s Prahran campus is a national centre of excellence for professional training in circus arts and physical theatre. NICA is an Associate Member of the Federation of European Circus Schools (FEDEC).

Swinburne’s Faculty of Design is considered one of the premier design and design research institutions in Australia. To see outstanding work and learn more about the programs and research activities go to www.swinburne.edu.au/design

Professional, real-world learning
Swinburne combines teaching, research and industry expertise within a supportive real-world learning environment, to produce professionally oriented graduates equipped with the skills and knowledge that some employers seek.

Within Swinburne’s Professional Learning Model, undergraduate students undertake a range of experiential learning activities. You will receive feedback on your development of generic skills while becoming increasingly capable in your chosen discipline. The Professional Learning Model provides you with a structured range of development opportunities, including complementary Electives Plus minors designed to diversify your career profile, and options to speed up or spread out your studies by enrolling in Winter or Summer terms.

You can choose from a diverse range of offerings from other discipline areas. This enables you to have an appreciation of other disciplines that will enhance and complement your employment and further education prospects.

Alternatively the co-major and minors may provide further in-depth study to those students who wish to specialise and obtain additional discipline-based skills and knowledge that some employers seek.

Ultimately you have flexibility and choice, and the opportunity to tailor the composition of your degree.

Electives Plus
Electives Plus minors provide additional options to broaden career skills and strengthen employability.

Electives Plus themes may include: Sustainability; Multimedia Web Development; or Establishing and Running a Business.

Some Electives Plus units are offered during Winter Term.

The Project Hub
In 2009, Swinburne’s Hawthorn campus opened a new dedicated space for students’ Capstone major projects – the Project Hub.

The Hub is open 24/7 for final year students to work on their major projects, to meet with clients and community partners, use for group project work and to share their experiences of final year university.

The Hub design was inspired by project processes often seen in contemporary workplaces and, with sustainability in mind, includes features like sensor lighting and zoned air management.

Our campuses

The ideal study environment

Swinburne has five campuses around the inner and eastern suburbs of Melbourne, and a campus in Sarawak, Malaysia. Each campus is a lively student community with its own character and a range of specialised courses and services.

The majority of Swinburne’s international students study at our Hawthorn, Lilydale and Prahran campuses. Swinburne also has campuses at Croydon and Wantirna; friendly and relaxed outer-suburban locations.

Services and facilities

Students have access to excellent facilities including well-equipped laboratories, extensive libraries, health centres and cafés. Swinburne has a wide range of sporting teams and facilities, and our special interest clubs offer many outdoor and extracurricular activities. All campuses have easy access to shops, accommodation, entertainment venues and transport.

Hawthorn campus

Student population: 14,500
Distance from city centre: 8 km
Travel time from city centre by train: 10–15 minutes

Swinburne’s main campus is in the inner-city suburb of Hawthorn. Set among the cafés, boutiques and bookshops of Glenferrie Road, and with the convenience of a supermarket and train station practically on campus, it offers an ideal lifestyle. There are several on-campus accommodation options, or you could choose to live nearby and walk to class through the tree-lined streets.

The campus has many specialised facilities and is the hub of our research and development activities. It is also home to Swinburne College.

Campus facilities include accommodation, library, computer labs, wireless internet, bookshop, sports and recreation centre, health service, counselling, automatic bank teller machine (ATM), cafés and a bistro.

Hawthorn is one of Melbourne’s most beautiful residential areas; many of Melbourne’s most exclusive private schools and colleges are located here.

Lilydale campus

Student population: 1900
Distance from city centre: 40 km
Travel time from city centre by train: 1 hour

Located at the gateway to the beautiful Yarra Valley wine and tourism region, the tranquil setting and friendly, supportive atmosphere of our Lilydale campus ensures you will have a valuable learning experience.

The campus is easily accessible by train and you’ll enjoy the convenience of a shopping centre within walking distance.

Campus facilities include the on-site Student Village accommodation, which overlooks the beautiful Lillydale Lake, Mitchell’s View training restaurant (for hospitality students), library, health and counselling services, bookshop, cafés, a language and learning lab, computer labs, wireless internet, an ATM and free parking.

Prahran campus

Student population: 2000
Distance from city centre: 6 km
Travel time from city centre by train: 10 minutes

Home to the Faculty of Design and the National Institute of Circus Arts, Swinburne’s Prahran campus is a creative, lively learning environment. Prahran is one of inner Melbourne’s most vibrant suburbs.

The Swinburne campus is just off the famous Chapel Street shopping precinct, which is lined with restaurants, nightclubs, and shops stocked with the latest local and international fashions. With a train station just around the corner and easy access to trams, it is a convenient location, whether you’re heading into the city centre or to the neighbouring beachside suburb of St Kilda.

Campus facilities include a library, bookshop, café, health and counselling services, computer labs and wireless internet.

Hawthorn campus

Student population: 14,500
Distance from city centre: 8 km
Travel time from city centre by train: 10–15 minutes

With a train station just around the corner and easy access to trams, it is a convenient location, whether you’re heading into the city centre or to the neighbouring beachside suburb of St Kilda.

Campus facilities include a library, bookshop, café, health and counselling services, computer labs and wireless internet.
Croydon campus
Student population: 4000
Distance from city centre: 32 km
Travel time from city centre by train: 40 minutes
Campus facilities include a library, bookshop, cafeteria, health and counselling services, computer labs and wireless internet.

Wantirna campus
Student population: 4200
Distance from city centre: 27 km
Travel time from city centre by train and bus: 1 hour
Campus facilities include a library, bookshop, cafeteria, health and counselling services, computer labs and wireless internet.

Sarawak campus
Swinburne Sarawak in Malaysia offers a unique study experience.
Student population: 3000
Distance from city centre: 3 km
Travel time from city centre by bus or car: 15 mins
The Sarawak campus, expanded in 2008, features custom-designed buildings for the schools of business and enterprise, engineering and science, computing and design. Facilities include lecture theatres and halls, engineering workshops, computer and research labs, a state-of-the-art digital resource centre, auditorium, multipurpose hall, cafes serving halal food, student lounge, sporting facilities and ample parking space.

On-campus accommodation features furnished rooms, shared laundry, bathrooms and recreation areas, and 24-hour security.

Kuching city
Kuching is regarded as one of the most liveable cities in Asia. You will find eclectic buildings with a mix of modern and post-colonial architecture. The people of Kuching are well known for their friendliness.
The largest city in the state of Sarawak, Kuching is developing rapidly. Shopping malls, retailing a range of international brands, can be found throughout this city of more than half a million people. Five-star hotels overlook the meandering Sarawak River with scenic mountain ranges as the backdrop. Only minutes away are centuries-old rainforests, unspoilt beaches and an award-winning ‘living’ museum, the Sarawak Cultural Village. Travelling within the city is easy and affordable with excellent public transport available.

Courses at Sarawak
Swinburne Sarawak offers programs that are identical to those offered at our Australian campuses. Since the courses and subjects are the same, students have a choice to complete their programs in Sarawak or transfer to complete them at the Hawthorn or Lilydale campuses in Melbourne.

The information in this guide pertains to applying to study at Swinburne’s Melbourne campuses, and living in Australia.

For information about Sarawak, email: info@swinburne.edu.my

Accommodation

Where you live can make all the difference to your study experience in Australia.

At Swinburne, we offer various accommodation options to ensure that your home environment suits your lifestyle.

On-campus residences
Swinburne’s survey shows that 90% of on-campus residents believe that living on campus is conducive to success in their studies.

There are on-campus residences at the Hawthorn and Lilydale campuses. Prahran students can choose to live at the Hawthorn residences and commute to Prahran by train (30-minute trip).

For further information on Swinburne accommodation, including how to apply, current fees and other costs, see www.international.swinburne.edu.au/accommodation

UniLodge @ Swinburne Place (Hawthorn)
These modern apartments accommodate 371 students in a range of open-plan studios, two-, three- and four-bedroom apartments, including terrace apartments and townhouses. The fully furnished apartments offer private bed/study rooms, bathroom, fully equipped kitchen with an open-plan living/dining area, broadband internet socket, TV and a telephone with voicemail.

High security is featured throughout, and bedrooms in shared apartments are individually lockable. Shared laundry facilities, study/tutorial rooms, games rooms, plasma screens with DVD player and an outdoor barbecue area complement the self-contained apartments. Secure underground car parking is also available. In 2009, prices (including utilities) for multishare apartment rooms start at $A199 per week, and studios from $A291 per week.

The Residential College (Hawthorn)
The Residential College has 84 single study bedrooms, which are fully furnished. It offers a safe and supportive environment particularly suited to students who have not lived away from home before. Each room has a single bed, a built-in desk with bookshelf, a basin and vanity cupboard, an electric jug, desk lamp, telephone, broadband internet connection, ergonomic study chair and a visitor’s chair. Bedrooms are heated and bed linen is provided.

Shared facilities include bathroom and toilets on each floor; kitchen with self-catering facilities; recreation/TV lounge areas; laundry facilities and tutorial rooms. The fees in 2009 are $A250–$270 per week.

Student Residence Apartments (Hawthorn)
The apartments offer independent living and are particularly suited to senior students or to those who have lived away from home before.

There are 56 apartments capable of accommodating up to 156 students. They are partly furnished and feature bedrooms with single bed, desk and ergonomic chair, telephone and broadband internet connection; kitchen with stove, oven, fridge and electric jug; gas heating; dining table and chairs; lounge with chairs and coffee table; laundry with washing machine and dryer; individual apartment and bedroom locks; and a security entrance. The fees in 2009 are $A195–$250 per week.

Lilydale Student Village
The Student Village has 25 fully furnished modern apartments, each containing four to five separately keyed bedrooms with either ensuite or twin-share bathroom, a kitchen, dining and lounge/study area. Wheelchair access is also available for a number of apartments. The Student Village has a common room with a pool table, lounge area, large flat-screen TV with pay TV and DVD, public telephone, laundry facilities, wireless internet, outdoor barbecue and on-site private parking. The Student Village is walking distance to the train station and local shops. The fees in 2009 are $A155–$180 per week, including utilities.

Accommodation

700 Accommodation places on campus
www.international.swinburne.edu.au/accommodation
You could choose to rent your own apartment, or share a two- or three-room rental house or apartment with other students. You cannot pre-book share accommodation, so we recommend that if you are seeking this type of accommodation you choose a short-term accommodation option for when you first arrive, and look for something to rent after a few months settling in. Share accommodation vacancies can easily be found online at the Swinburne Student Housing Database: swinaccomm.visualeyes.net.au

In 2009, the average cost of share accommodation is A$120 per week for a room plus utilities (gas, electricity and water), which are approximately A$17 per week. If you choose to establish your own household in a privately rented flat or house, Swinburne International can provide you with advice on location, and a reference letter confirming your enrolment at Swinburne. Remember that setting up your own flat or house will also mean furnishing it, so you’ll need to budget for that.

www.international.swinburne.edu.au/arrival/accommodation/homestay

Homestay

Homestay means living with a local family or resident. It is a cultural exchange between a local individual or family (called a host) and a visiting international student. The student lives as a guest in the home and it is a great way for students to learn English and experience Australian lifestyle.

Homestay includes three meals per day, a furnished bedroom, electricity, gas and water. Students generally prepare their own breakfast and lunch from ingredients provided by the host. Hot dinners are prepared by the host. The cost per week is A$265 for students aged over 18, and A$285 for students under 18 years of age.

Temporary accommodation in homestay is for a minimum period of four weeks. A minimum two week’s notice is required when students plan to leave their host’s home. Homestay bookings should be made at least 10 days prior to arrival. A placement fee of A$200 must be paid at the time of lodging an application.

In 2009, the average cost of share accommodation is A$120 per week for a room plus utilities (gas, electricity and water), which are approximately A$17 per week.

If you choose to establish your own household in a privately rented flat or house, Swinburne International can provide you with advice on location, and a reference letter confirming your enrolment at Swinburne. Remember that setting up your own flat or house will also mean furnishing it, so you’ll need to budget for that.

www.international.swinburne.edu.au/arrival/accommodation/homestay

www.international.swinburne.edu.au/arrival/accommodation/homestay

Living costs

Living costs vary according to the type of accommodation you choose and the lifestyle you lead. You will require approximately A$20,000–$22,000 per year for ongoing living costs (not including tuition fees or airfares). You will also need to budget approximately A$3000–$5000 for the initial costs of establishing yourself in Melbourne and it is recommended you allow A$1500–$2000 for the purchase of a computer.

www.international.swinburne.edu.au/arrival/accommodation/homestay

I think good accommodation can help you study better.

I think good accommodation can help you study better. Living on campus was very convenient. There are resident advisers to assist with all your needs and it felt safe and secure living in a place with only students.

If you’re thinking about studying at Swinburne, try it! It’s a good way to make friends and an experience you won’t forget.

www.international.swinburne.edu.au
We’ll look after you

Swinburne offers a fantastic lifestyle for international students.

At Swinburne we know you want to make the most of your time here, both inside and outside the classroom. That’s why we provide specialised services to help you make the transition to life and study in Melbourne.

Swinburne International

Swinburne International will be your first point of contact when you arrive and will provide ongoing support throughout your time here.

Just some of the areas we can help you with include your application, accommodation, visas, health insurance, course information and referrals to other services both on- and off-campus. Plus many of our staff speak languages other than English.

www.international.swinburne.edu.au/student-life/support

International student activities

There is so much more to studying in Australia than just being in the classroom, which is why Swinburne International organises affordable daytrips and activities for all our international students. Trips to popular tourist destinations are run most weekends during the teaching period. We also arrange numerous adventure activities. These trips are a great way to make new friends while seeing the rest of what Australia has to offer.

www.international.swinburne.edu.au/student-life/activities

Sponsored Students Unit (SSU)

The SSU, located within Swinburne International, is dedicated to assisting those students undertaking specific training or staff development as part of their scholarship funding from a government, or organisation other than Swinburne.

The SSU manages the contracts and agreements with scholarship providers, assists students to liaise with sponsoring agencies regarding scholarship and study matters, and provides a range of services and workshops to guide students to manage the challenges of student life in Australia. Swinburne has over 250 sponsored students from many diverse nationalities including Malaysians, Papua New Guineans, Emiratis, Germans, Laotians, Mexicans, Sri Lankans, Thai, Saudi Arabians and Indonesians.

The SSU is the main contact for scholarship providers and their recipients.

www.international.swinburne.edu.au/student-life/sponsored

Language and Academic Skills Unit (LAS)

LAS advisers run workshops and conversation groups throughout the teaching period to assist students in developing the necessary language skills and techniques to achieve their academic goals. Students can also make individual appointments with the LAS Advisers (including maths and computing teachers) to discuss assignments, practise all language skills and prepare for examinations.

www.international.swinburne.edu.au/las

Student services

Numerous services are available to all Swinburne students, including careers and employment advice, childcare facilities, counselling, services for students with a disability, health services, financial advice and study support.

www.swinburne.edu.au/stuserv

Student clubs

Joining a club on your campus gives you the opportunity to form new friendships. As close networks are made, club members become an excellent source of support and information. This is particularly true when you first arrive.

Clubs have regular social activities, cultural nights and sporting events. From the Indonesian Students Association, the Aviation Society, the Multicultural Student Fellowship and Swinburne Student Radio, the Sri Lankan Students Association to the Chinese Students’ Club and a range of sports clubs, you’re sure to find a group where you’ll feel right at home.

www.swinburne.edu.au/ssaa

SEMESTER TRIPS

Here is just a taste of some of the activities that international students have enjoyed:

- Outback Australia Trip: A nine-day trip to the heart of the Northern Territory – a journey of discovery into the natural history of this vast, ancient land.
- Great Ocean Road Daytrip: See one of the most beautiful stretches of road in Australia. Enjoy the scenic beauty that is Loch Ard Gorge and then head across to the spectacular view of the Twelve Apostles.
- Grampians Overnight Trip: Visit the famous McKenzie Falls and travel through the rugged mountain ranges of the spectacular Grampians National Park.
- Phillip Island Koalas and Penguins: See koalas in their natural habitat at the Conservation Centre. Then head to the Penguin Parade to watch the cute little fairy penguins emerge from the water and make their way to their burrows.
- MCG (Melbourne Cricket Ground) Tour: Take a tour of the home of Australian sport and the new National Sports Museum.
- Swinburne 2010 International Course Guide

SWIM AT LUNCHTIME

Study style

Teaching and assessment

Flexible delivery
You will also be exposed to the latest in flexible-delivery options such as podcasts and video-streamed lectures, video conferences, simulations, discussion forums and online chats. You will have plenty of opportunities to meet and interact with other students to optimise your learning and build professional networks.

Swinburne also offers a range of programs delivered wholly online or by distance learning. International students holding a student visa are required by Australian government regulations to study any online program from a country outside Australia.

www.swinburne.edu.au/postgrad/courses/distance-learning

Assessment methods
Assessment takes various forms. Generally coursework students will be assessed through a combination of assignments, examinations, practical sessions, individual and group projects, and presentations.

www.international.swinburne.edu.au/courses

Learning facilities

Library
Students have access to library services across all campuses. Swinburne libraries provide information resources, information-literacy training (library orientation and skills in finding, evaluating, organising and using information) and information access services. The Hawthorn campus library also provides 24-hour computer labs, which allow students access to networked PCs, printing, photocopying and scanning facilities at any time.

Information technology
The Information Technology Services department provides computing services and support including computer labs, online library services, dial-in access and webmail. Wireless internet access is available across all Swinburne campuses.

Academic terminology

Course/Program
This is what we call your doctorate, degree, diploma, certificate or complete program of study. It is made up of a number of units.

Unit of study (unit)
An individual subject or module studied as part of a course/program.

Prerequisite
A unit of study or other requirement that must be completed in order to take further units at Swinburne.

Credit point
Each Swinburne unit of study has a credit point value. Most units are 12.5 credit points.

Study load
Load relates to the number of credit points studied in each teaching period. International student visa holders are normally required to take a full-time study load. For most courses at Swinburne, a full-time study load is 50 credit points in each semester.

DID YOU KNOW?

You can apply for credit for your previous studies and reduce the duration of your course. See page 49.

English courses

Swinburne College, located on the Hawthorn campus, provides English Language Intensive Courses for Overseas Students (ELICOS). These courses are ideal for international students who intend to study in Australia or wish to improve their English for social or business purposes.

Courses
Courses range from Pre-Intermediate to Advanced levels, so you can undertake a program suited to your needs and reach the English level required for your further studies.

Programs range in duration from five to 40 weeks. There are many intakes throughout the year, with programs starting every five weeks. Each level has a duration of 10 weeks (200 classroom hours; 50 hours in the Independent Learning Centre).

During the orientation program, you will be interviewed and tested to determine the course level appropriate for you.

General English, Levels 1 and 2 (Pre-Intermediate and Intermediate): This course extends your knowledge of grammar and vocabulary. The focus is on increasing your confidence in using English for communication in social situations.

English for Academic Purposes, Level 1 (Upper Intermediate): This course introduces the language and study skills required for tertiary studies.

English for Academic Purposes, Level 2 (Advanced): At Level 2 you will learn the language specific to your intended field of study, such as design, business or IT, as well as general academic skills in research, writing essays and reports and giving oral presentations.

Develop these skills
- Reading strategies
- Writing skills
- Interpretation of graphic information
- Note-taking from both lectures and written texts
- Research and library techniques
- Seminar and tutorial strategies
- Language specific to design, business, engineering, science and IT
- Computer-based skills

Direct entry
ELICOS students that successfully complete English for Academic Purposes Level 2 (Advanced) Program may be offered direct entry into TAFE, undergraduate or postgraduate-by-coursework programs.

Learning style
- Class times: 20 hours per week plus five hours monitored independent learning
- Class size: Average of 15 students per group
- Facilities: Computer rooms, Independent Learning Centre, fully equipped modern classrooms and student lounge
- Teachers: Friendly, experienced, postgraduate-qualified ESL/EFL teachers
- Materials: Print, audio, video and computer-based materials are provided for all programs
- Certificates: Reports and certificates are issued at the end of each program
- Orientation program: A program is conducted by bilingual staff from Swinburne International. It provides information on banking, housing, transport and social activities to help you adjust to living in Melbourne.

For details, see www.swinburne.edu.au/college

English at Sarawak
Swinburne also offers English language courses at Sarawak, Malaysia.

For details, see www.swinburne.edu.my/courses

* Recommended entry levels are a guide only. Test results are assessed individually to determine your course level and duration.

If you achieve a specific level within the general entry requirements you may be eligible to commence General English 1, General English 2 or English for Academic Purposes 1 halfway into the course.

If you wish to enrol in an ELICOS program at Swinburne as part of your studies, please indicate your preference on the application form on page 52. For more information on fees and intake dates for ELICOS programs, please visit www.international.swinburne.edu.au/courses/elicos/
Foundation Studies and Degree Transfer (Unilink) Programs

Swinburne’s Foundation Studies and Degree Transfer Programs (Unilink) are specifically designed for international students in order to prepare them for further study in Australia and allow a smooth transition into Swinburne’s undergraduate programs.

Foundation Studies programs prepare students for entry into the first year of a bachelor degree, whereas Unilink programs are the equivalent of the first year of a bachelor degree and prepare students for second-year entry.

Both programs are a cost-effective option for students.

Foundation Studies is designed for students who have not achieved the requirements for direct entry to a bachelor degree and the program helps prepare students for first year of university or Unilink programs.

Unilink provides a pathway for students who have not achieved the requirements for direct entry to a bachelor degree and wish to pursue another pathway to a degree. Unilink is ideal for students who are seeking greater support in their transition to degree studies.

Both programs support students in their transition to further academic studies and offer the advantage of small classes, greater contact hours and more student-teacher interaction.

The Swinburne Foundation Studies programs meet the requirements for Foundation Programs which have been registered on CRICOS for delivery in Australia to overseas students, providing an academic preparation for students seeking entry to first year undergraduate study or its equivalent.

The advantages of Unilink and Foundation Studies

Our teaching style
- Significantly greater contact hours than university programs
- Small class sizes for greater student–teacher interaction
- Innovative teaching methods: interactive activities; preparation of class magazine at Foundation level, and a business report in Unilink; activities designed to develop collaborative learning and teamwork skills

Your learning environment
- New, vibrant custom-designed facilities
- Centrally located at Swinburne’s main campuses
- Culturally diverse student population
- Part of the university

We are here to help you
- Specialised pastoral care program to meet your academic, personal and social needs
- One point of contact for access to student services, assistance with immigration and other agencies
- Free academic assistance available in mathematics, English and information technology
- Extensive orientation program
- Social activities encouraging cultural exchange within an Australian family setting

### Additional costs
Tuition fees do not include minor equipment costs that may be incurred as part of your course (e.g. statistics calculators, some design equipment, etc). Contact us via international@swinburne.edu.au for details.

### Notes
- Note that these three courses are usually taken in combination. The diploma is a prerequisite for the advanced diploma and the advanced diploma is a prerequisite for the bachelor. The combined duration is three years.
- Note that these courses are usually taken in combination. The Certificate III contains prerequisite units for the diploma and the diploma contains prerequisite units for the advanced diploma. The combined duration is 18 months.
- Students in this course will study at both Lilydale and Prahran campuses.

#### Swinburne International Course Guide

**Diploma of International Business**
- Duration: 6 months
- Intake: Feb, Jul
- Total Fees: A$5,500

**Diploma of Retail Management**
- Duration: 6 months
- Intake: Feb, Jul
- Total Fees: A$5,500

**Advanced Diploma of Accounting**
- Duration: 6 months
- Intake: Feb, Jul
- Total Fees: A$5,500

**Advanced Diploma of Business (International Business)**
- Duration: 6 months
- Intake: Feb, Jul
- Total Fees: A$5,500

**Advanced Diploma of Marketing**
- Duration: 6 months
- Intake: Feb, Jul
- Total Fees: A$5,500

**Advanced Diploma of Business Management (Specialising in the Retail Industry)**
- Duration: 6 months
- Intake: Feb, Jul
- Total Fees: A$5,500

**Bachelor of Business**
- Duration: 3 years
- Intake: Feb, Aug
- Annual Fees: A$17,000

**Bachelor of Business (Accounting)**
- Duration: 3 years
- Intake: Mar, Aug
- Annual Fees: RM19,425

**Bachelor of Business (Finance)**
- Duration: 3 years
- Intake: Feb, Aug
- Annual Fees: A$17,000

**Bachelor of Business (Human Resource Management)**
- Duration: 3 years
- Intake: Feb, Aug
- Annual Fees: A$17,000

**Bachelor of Business (International Business)**
- Duration: 3 years
- Intake: Mar, Aug
- Annual Fees: RM19,425

**Bachelor of Business (Management)**
- Duration: 3 years
- Intake: Feb, Aug
- Annual Fees: A$17,000

**Bachelor of Business (Marketing)**
- Duration: 3 years
- Intake: Feb, Aug
- Annual Fees: A$17,000

**Bachelor of Business (Public Relations)**
- Duration: 3 years
- Intake: Feb, Aug
- Annual Fees: RM19,425

**Bachelor of Commerce**
- Duration: 3 years
- Intake: Feb, Aug, Sep
- Annual Fees: A$18,000

**Bachelor of Commerce/Bachelor of Arts (Italian)**
- Duration: 4 years
- Intake: Feb
- Annual Fees: A$18,000

**Bachelor of Commerce/Bachelor of Arts (Japanese)**
- Duration: 4 years
- Intake: Feb
- Annual Fees: A$18,000

**Bachelor of Commerce (Accounting)**
- Duration: 3 years
- Intake: Feb, Aug, Sep
- Annual Fees: A$18,000

**Bachelor of Commerce (Accounting and Finance)**
- Duration: 3 years
- Intake: Feb, Aug, Sep
- Annual Fees: A$18,000

**Bachelor of Commerce (Commercial Law)**
- Duration: 3 years
- Intake: Feb, Aug, Sep
- Annual Fees: A$18,000

**Bachelor of Commerce (Entrepreneurship and Innovation)**
- Duration: 3 years
- Intake: Feb, Aug, Sep
- Annual Fees: A$18,000

**Bachelor of Commerce (Finance)**
- Duration: 3 years
- Intake: Feb, Aug, Sep
- Annual Fees: A$18,000

**Bachelor of Commerce (Human Resource Management)**
- Duration: 3 years
- Intake: Feb, Aug, Sep
- Annual Fees: A$18,000

**Bachelor of Commerce (International Business)**
- Duration: 3 years
- Intake: Feb, Aug, Sep
- Annual Fees: A$18,000

**Bachelor of Commerce (Management)**
- Duration: 3 years
- Intake: Feb, Aug, Sep
- Annual Fees: A$18,000

**Bachelor of Commerce (Marketing)**
- Duration: 3 years
- Intake: Feb, Aug, Sep
- Annual Fees: A$18,000

---

**Notes:**
- d. Note that students who do not meet the entry requirements for an undergraduate degree will automatically be considered for a Foundation or Degree Transfer program.
- e. Note that these courses are usually taken in combination. The Certificate IV contains prerequisite units for the diploma and the diploma contains prerequisite units for the advanced diploma. The combined duration is 18 months.
- f. Note that these courses are usually taken in combination. The Certificate IV contains prerequisite units for the diploma and the diploma contains prerequisite units for the advanced diploma. The combined duration is 18 months.
- g. September intake is only available to students progressing from Unilink Business.
- h. Current mode of offer at Sarawak (Sarawak campus fees) plus one year in Melbourne (Lilydale campus fees).
- i. Current mode of offer at Sarawak (Sarawak campus fees) plus one year in Melbourne (Lilydale campus fees).
- j. Note that these courses are usually taken in combination. The Certificate IV contains prerequisite units for the diploma and the diploma contains prerequisite units for the advanced diploma. The combined duration is 18 months.
- k. Note that these courses are usually taken in combination. The Certificate IV contains prerequisite units for the diploma and the diploma contains prerequisite units for the advanced diploma. The combined duration is 18 months.

**Campuses**

- C Croydon
- H Hawthorn
- L Lilydale
- P Prahran
- S Sarawak, Malaysia
- W Wantirna

**Course fees**

- *The indicative course fees detailed in this publication relate to 2010 only.* They are based on a standard study load per year. However, please note that fees are assessed according to a student’s study load in each semester, and variation to study load will result in an adjustment to tuition fees. All fees are subject to annual review and may be adjusted.

**Additional costs**

- Tuition fees do not include minor equipment costs that may be incurred as part of your course (e.g. statistics calculators, some design equipment, etc). Contact us via international@swinburne.edu.au for details.

**Course Search**

- CS Refer to Course Search for more information about this program: www.international.swinburne.edu.au/courses

**Codes**

- AM Advanced Maths
- BI Biology
- CH Chemistry
- INT Interview required for entry
- IS Information Systems
- IT Information Technology
- MA Maths (any)
- PHY Physics
- PSY Psychology
- SC Science
- SM Specialist Maths
- C Completion

**Notes**

- c Students in this course will study at both Lilydale and Prahran campuses.
- d Note that students who do not meet the entry requirements for an undergraduate degree will automatically be considered for a Foundation or Degree Transfer program.
- i The Faculty of Design offers an optional six-week Winter Term allowing you to complete extra units between the standard semesters and therefore complete the course over a shorter period, or spread out your studies. The Winter Term is not mandatory, but is offered if you wish to vary your study load.

| Bachelor of Business (Tourism and Management)                       | L      | 3 years  | Feb, Aug | A$17,000 annual        | Nil                    | 39   |

---

**Footnotes:**

- Students in this course will study at both Hawthorn and Prahran campuses.
- September intake is available to students progressing from Unilink Engineering.
- Additional fees apply for flying school. See course description for details.
- In addition to course fees, a materials fee of approximately A$2500 is payable.
- Current mode of offer at Sarawak: two years in Sarawak (Sarawak campus fees) plus two years in Melbourne (Hawthorn campus fees).
- Note that these three courses are usually taken in combination. The Certificate III contains prerequisite units for the diploma and the diploma contains prerequisite units for the advanced diploma. The combined duration is two years.
- Note that these two courses are usually taken in combination. The Certificate III contains prerequisite units for the advanced diploma. The combined duration is two years.

### Course fees

* The indicative course fees detailed in this publication relate to 2010 only. They are based on a standard study load per year. However, please note that fees are assessed according to a student’s study load in each semester, and variation to study load will result in an adjustment to tuition fees. All fees are subject to annual review and may be adjusted.

### Additional costs

Tuition fees do not include minor equipment costs that may be incurred as part of your course (e.g., statistics calculators, some design equipment, etc.). Contact us via international@swinburne.edu.au for details.

### Course Search

CS Refer to Course Search for more information about this program: [www.international.swinburne.edu.au/courses](http://www.international.swinburne.edu.au/courses)

### Codes

Arts, Psychology and Social Science

If you want to explore more than what's in front of you, Swinburne’s arts, psychology and social science courses will give you a broad foundation for lifelong learning as well as a specialisation that will assist you in your chosen career.

University Degrees

**Bachelor of Arts**
Campus: Hawthorn
Duration: Three years
Intake: February, August

This course provides a broad introduction to the study of human culture. Areas of study can include: journalism, media, politics and public policy, and sociology. The course develops skills of investigation, analysis, critical thinking and communication, and prepares you for a wide range of professional employment and further study options.

**Major study areas**
- You will be required to undertake a major and either a co-major or two minors. Depending on your major study area/s, you have the option of graduating with a Bachelor of Arts or one of the following:
  - Bachelor of Arts (Journalism)
  - Bachelor of Arts (Media)
  - Bachelor of Arts (Media and Communications)
  - Bachelor of Arts (Politics and Public Policy)
  - Bachelor of Arts (Sociology)

**Journalism:** this major combines traditional journalistic skills with new skills, including self-sufficient internet publishing, multimedia production and the skills involved in interacting with audiences, social networking and building online communities. The program also provides an understanding of the broad social, historical, legal and moral context of journalism.

**Media:** provides a broad and practical approach to media studies, preparing students to work in both the media and multimedia industries. Students will also gain an understanding of political economy and the rapid emergence of new media, examining issues such as ownership, control of the media and the impact of new technologies. You may also choose to add a co-major in Communications and, on successful completion, graduate with a Bachelor of Arts (Media and Communications).

**Politics and Public Policy:** examines the social and political context in which technology and business professionals operate. You will undertake analysis of political and policy processes. You will contextualise your learning by focusing on contemporary events and the background to them. You will develop your research and analytical skills, along with work-related skills such as critical thinking, analytical capacity, problem solving and effective communication.

**Sociology:** prepares students for careers in research, government, non-profits and other human-focused fields. The curriculum emphasises research skills training, in particular research design and qualitative research methods. You will design and carry out original research, providing you with critical real-world project management, research design, and report writing skills.

**Career opportunities**
Graduates are equipped for professional careers in their area of specialisation. These include: policy analysis and development, research, community development, administration, public relations, publishing, media, community development and social management. Depending on their area of specialisation, graduates may find employment as journalists, teachers (with further training), sociologists, publishers, internet providers and digital marketers, social planners and writers.

**Bachelor of Circus Arts**

**Advanced Diploma of Circus Arts**

**Diploma of Circus Arts**

**Bachelor of Circus Arts**
Campus: Prahran
Duration: Bachelor – One year
Advanced diploma – One year
Diploma – One year
Total duration: Three years
Intake: January

*Please note that the diploma is a prerequisite for the advanced diploma and the advanced diploma is a prerequisite for the bachelor.*

**Special requirements**
This course has a special application process, with entry into the National Institute of Circus Arts (NICA) by audition, interview and physiotherapy assessment. Refer to the NICA website for details: www.nica.com.au

Swinburne’s circus courses are accredited as full members of the Federation Européenne des Écoles de Cirque Professionelles (Fédération Européenne des Écoles de Cirque Professionnelles or Federation of European Professional Circus Schools). NICA is the South-East Asian training partner of Cirque du Soleil and has strategic alliances and training partnerships with Nanjing Acrobatic Troupe, Shanghai Circus School, and Taiwan National Academy of Performing Arts.

NICA is recognised both nationally and internationally as a centre for excellence in training. NICA is a current member of the Australian Roundtable for Arts Training Excellence (ARTATE). NICA is accredited as a full member of the Fédération Européenne des Écoles de Cirque Professionelles (Federation of European Professional Circus Schools). NICA is a current member of the Australian Roundtable for Arts Training Excellence (ARTATE).

**Career opportunities**
Graduates are equipped for careers in contemporary circus, traditional circus, social circus, stunt work, corporate entertainment, festivals, teaching and other sectors of the arts industry. New companies are emerging as NICA graduates find their place within the global circus arts community.

**Professional recognition**
NICA is recognised both nationally and internationally as a centre for excellence in training. NICA is a current member of the Australian Roundtable for Arts Training Excellence (ARTATE). NICA is accredited as a full member of the Fédération Européenne des Écoles de Cirque Professionelles (Federation of European Professional Circus Schools). NICA is a current member of the Australian Roundtable for Arts Training Excellence (ARTATE).

NICA is the South-East Asian training partner of Cirque du Soleil and has strategic alliances and training partnerships with Nanjing Acrobatic Troupe, Shanghai Circus School, and Taiwan National Academy of Performing Arts.

You may be eligible for a scholarship to undertake this course. For more information visit www.international.swinburne.edu.au/scholarships

If you want to explore more than what’s in front of you, Swinburne’s arts, psychology and social science courses will give you a broad foundation for lifelong learning as well as a specialisation that will assist you in your chosen career.
Bachelor of Arts (Psychology and Psychophysiology)

OR

Bachelor of Science (Psychology and Psychophysiology)

Campus: Hawthorn
Duration: Three years
Intake: February, August

This course covers psychology and associated physiological processes. It will enable you to acquire knowledge of psychological theories that will improve your ability to understand human behaviour and physiology, while also providing extensive opportunities for application to real-life situations. Psychology provides a scientific understanding of human behaviour with specialised study in social and personality psychology, psychological assessment, abnormal psychology, and research methods. Psychophysiology emphasises the monitoring and measurement of physiological processes using biomedical instrumentation and relates this to behaviour and psychological states. You will complete a variety of research projects that develop critical real-world project management, research design, and report writing skills.

Students who enrol in the Bachelor of Arts (Psychology and Psychophysiology) will undertake two arts units as part of their studies, while students who enrol in the Bachelor of Science (Psychology and Psychophysiology) will undertake two science units as part of their study.

Units include:
- Statistics and Research Methods
- Physiological and Scientific Concepts
- Technology and Data Acquisition
- Neurpsychology, Neurological Monitoring, Design and Measurement
- Developmental Psychology
- Sensory Systems, Perception and Motor Systems
- Cognition and Human Performance
- Social Psychology
- Sleep and Attention
- Higher Cortical Function
- Psychology of Personality
- Psychological Measurement
- Abnormal Psychology

Career opportunities

Graduates are equipped for careers in areas such as policy analysis and development, research, community development, administration and human services management. With further studies, students with appropriate majors can obtain qualifications to become librarians, teachers, personnel officers, social workers or sociologists.

Bachelor of Communication

Campus: Lilydale and Prahran
Students in this course will study at both Lilydale and Prahran campuses
Duration: Three years
Intake: February, August

This course combines studies in three distinctive but highly related areas: media studies, public relations and design. Students will receive grounding in media and media production, public relations in society and the impact of design in these specialised areas of communication. Students will also have the opportunity to participate in hands-on projects designed to help produce work-ready students able to take on the challenges of a dynamic professional communication sector.

Major study areas
You will be required to undertake a major and either a co-major or two minors. Depending on your choice of major study area(s), you have the option of graduating with a Bachelor of Communication or one of the following:
- Bachelor of Communication (Media Studies)
- Bachelor of Communication (Public Relations)

Media Studies: you will acquire knowledge of current media theories and learn to write for print, broadcast and digital media. You will engage in debate around globalisation, media ownership, policy and regulation and advances in digital technologies and social media such as blogs and YouTube. You will also have the opportunity to gain hands-on digital and communications experience.

Public Relations: public relations professionals frequently work alongside creative designers of graphics, multimedia, web presence, products and events. As such, design is a central theme of this course. Students learn the language of design so they can write effective briefs for their design colleagues and will produce portfolios that constitute part of their assessable work and serve as evidence of their achievements for employment purposes.

Career opportunities

Depending on your chosen major, students may be able to find employment in areas such as advertising; communications research; digital media production; media communication; film and television; journalism; radio; public relations; web design; video production; community, investor or government relations; product publicity; issue management; crisis and risk communication; and media relations.

Bachelor of Social Science

Campus: Hawthorn
Duration: Three years
Intake: February, August

This course introduces you to the scientific study of individuals, groups and human societies. You will learn how social relationships and institutions shape individuals and how they in turn have the capacity to shape these social institutions. The course develops skills of investigation and analysis, critical thinking and effective communication.

Major study areas
You will be required to undertake a major and either a co-major or two minors. Depending on your choice of major study area(s), you have the option of graduating with a Bachelor of Social Science or one of the following:
- Bachelor of Social Science (Community Health)
- Bachelor of Social Science (Politics and Public Policy)
- Bachelor of Social Science (Sociology)

Community Health: you will study a range of topics, including public and community health, health ethics, policy, law and sociology, focusing on understanding or improving the health status of individuals and communities. You will be familiarised with a social model of health service provision and build skills in social research design, statistics and research methods, policy, ethics and law.

Politics and Public Policy: examines the social and political context in which technology and business operates. You will undertake analysis of political and policy processes. You will contextualise your learning by focusing on modern events and their background. You will develop research and analytical skills; work-related skills of critical thinking; analytical capacity; problem solving; and effective communication.

Career opportunities

Graduates are equipped for careers in areas such as policy analysis and development, research, community development, administration and human services management. With further studies, students with appropriate majors can obtain qualifications to become librarians, teachers, personnel officers, social workers or sociologists.

Sociology: equips graduates with specialised knowledge of social processes and cultivates creative and critical thinking skills highly sought after by employers in the public, private and community sectors. Sociologists’ understanding of social and cultural issues and highly developed communication and research skills is accompanied by intellectual resourcefulness and the ability to adapt to new social and technological circumstances crucial in today’s rapidly changing workplaces.

ANOUSONE SOSENGIH
Bachelor of Social Science (Psychology)
from Laos

I chose this course because this qualification is in high demand in Laos and is crucial for social development.

Swinburne is very culturally diverse and it is not too far or too near to the city.

My advice to other students coming to Swinburne is to expect that you’ll be different from others, but you’ll never be strange in such a cosmopolitan country.”

SAVE 10% Study Lilydale Scholarships provide international students with a 10% annual reduction in course fees for the duration of the degree. See page 2 for more.

www.international.swinburne.edu.au
Bachelor of Social Science
Campus: Lilydale
Duration: Three years
Intake: February, August

This course aims to ensure that students and graduates are focused and skilled through practical application of theoretical social science knowledge at an advanced level. It will also develop your life-long learning skills and provide you with a global and multi-disciplinary awareness of issues in the field of social science and related areas.

Major study areas
You will be required to undertake a major and either a co-major or two minors. Depending on your choice of major study area/s, you have the option of graduating with a Bachelor of Social Science or one of the following:

- Bachelor of Social Science (Media Studies)
- Bachelor of Social Science (Public Relations)
- Bachelor of Social Science (Sociology)

Media Studies: through a combination of theoretical units based around the social world, cultural diversity and research techniques, this course will teach you how to think critically about media and the role of media in societal processes. You will learn practical focus skills in writing for media, developing your own blogs and opinion pieces, engaging with debates around cinema and digital technologies and exploring the changing face of social media and media production.

Public Relations: provides a solid foundation in both the theory and practice of public relations. You will learn how to research audiences, develop suitable messages, implement communication programs and evaluate their success. You will gain a solid grounding in areas such as culture and diversity, society and organisations and social research, all of which help to provide a strong societal and advocacy perspective to the major.

Sociology: equips graduates with specialized knowledge of social processes and cultivates creative and critical thinking skills highly sought after by employers in the public, private and community sectors. Sociologists’ understanding of social and cultural issues and highly developed communication and research skills is accompanied by intellectual resourcefulness and ability to adapt to new social and technological circumstances crucial in today’s rapidly changing workplaces.

Work-Integrated Learning (WIL)
During your studies, you can choose to participate in Swinburne’s Work-Integrated Learning program. WIL is an optional program that provides you with experience in developing a real project for industry, without extending the duration of your course.

Career opportunities
Graduates may seek employment in a diverse range of fields such as: social research, administration, policy and planning, welfare, community development, human resources, policy and program evaluation, marketing, social business and market research, industry analyst, media relations, public relations, project management, health and human services manager, counselling, community services, lobbyist, ethics adviser, evaluation officer, education administrator.

Bachelor of Social Science (Psychology)
Campus: Hawthorn
Duration: Three years
Intake: February, August

This course will provide you with knowledge and skills in a variety of study areas that improve your ability to understand and explain human behaviour and relationships. The psychology major (APAC-accredited) provides a broad introduction to a range of relevant studies, with more specialised study in developmental psychology, cognition, social psychology, personality, design and measurement, psychological measurement and abnormal psychology. Students complete a variety of research projects which develop critical real-world project management, research design, and report writing skills.

Units include
Psychology, Cognition and Human Performance, Developmental Psychology, Design and Measurement, Social Psychology, Psychology of Personality, Psychological Measurement, and Abnormal Psychology. You may complement your psychology major with additional units of study from Arts, Science or Social Science dependent on your choice of course.

Career opportunities
Successful graduates may find employment in fields such as human resources, marketing, advertising, education, policy development, welfare and research. Further studies in areas of professional psychology can lead to career opportunities such as clinical, counselling, organisational, forensic, developmental, health, human factors and sports psychology.

Professional recognition
The three-year undergraduate sequence in psychology is accredited by the Australian Psychology Accreditation Council (APAC).
Foundation Studies

Swinburne Foundation Studies (Business)
Campus: Hawthorn
Duration: Eight months
Intake: February, June, October

This course is designed to prepare you for further studies in business-related fields such as accounting, marketing, human resource management, international business and e-commerce. It will allow you to develop fundamental communications, IT and mathematics skills and introduce you to specialised business study areas such as economics, accounting and law.

Units include
- English and Communications Skills
- Innovations and Change
- General Mathematics
- Information Technology
- Law
- Accounting
- Marketing
- Economics

Pathways
On successful completion of this program you will progress directly into our degree transfer program, Unlink Business OR, if you have achieved a credit average (65 or better) and would prefer to start your bachelor degree sooner, you can apply for entry into first year of any of the Bachelor of Commerce degrees listed on page 27 of this guide, the Bachelor of Business courses listed on page 26 of this guide, the Bachelor of Information and Communication Technology, or the Bachelor of Business (Tourism and Management).

Career opportunities
Depending on the bachelor course you choose and the areas you major in, you could be headed for a career in areas as diverse as accounting, administration, e-commerce, human resources, international business, management, marketing, project management, public relations, software development, systems analysis or tourism. Or perhaps you’d like to launch your own business!

www.swinburne.edu.au/college

Degree Transfer Program

Unilink Business Degree Transfer Program
Campus: Hawthorn
Duration: Eight months
Intake: February, June, October

This course offers you an alternative pathway to the Bachelor of Business or Bachelor of Commerce. It is the equivalent to the first year of degree studies. Unlink Business offers you small classes and greater student-teacher interaction. This course also includes two communication units, which are designed to develop and enhance your verbal and written academic skills.

Units include

Elective units: Market Behaviour, Financial Information Systems.

Degree transfer
Transfer to second year of the following degrees is guaranteed for students who pass six of the eight units studied, with Academic Culture and Communication, and Business Culture and Communication counting as one unit: Bachelor of Business Information Systems, Bachelor of Business, Bachelor of Business (Accounting), Bachelor of Business (Tourism and Management), Bachelor of Commerce, Bachelor of Commerce (Accounting), Bachelor of Commerce (Accounting and Finance), Bachelor of Commerce (Commercial Law), Bachelor of Commerce (Entrepreneurship and Innovation), Bachelor of Commerce (Finance), Bachelor of Commerce (Human Resource Management), Bachelor of Commerce (International Business), Bachelor of Commerce (Management) and Bachelor of Commerce (Marketing). Students may be eligible to articulate into these programs with up to eight exemptions.

Note: Unlink students enrolling in the September intake must pass seven of the eight units studied in order to be granted admission to the Bachelor of Commerce programs.

Career opportunities
Depending on the bachelor degree you choose and the areas you major in, you could be headed for a career in areas as diverse as accounting, administration, e-commerce, human resources, international business, management, marketing, project management, public relations, software development, systems analysis or tourism. You might even like to launch your own business!

www.swinburne.edu.au/college

www.international.swinburne.edu.au

With a targeted suite of quality, professionally oriented business programs, Swinburne equips you with a diverse range of theoretical knowledge and practical skills to prepare you for the demands of tomorrow’s business world.
TAFE Courses

Diploma of Business and Information Systems

Campus: Sarawak
Duration: Three years
Intake: March, August

This course provides you with the experience, knowledge and procedures to effectively apply the required practices and manage a variety of roles related to administration in a business/office enterprise.

Units include

Ministry of Higher Education units

The Malaysian Ministry of Higher Education requires Malaysian students to successfully complete the following compulsory units (Mata Pelajaran Wajib) prior to graduation, at no extra cost:
- Malaysian Studies, Islamic Studies/Moral Studies, Bahasa Kebangsaan.

Pathways

Upon completion of this course you will be able to pursue your degree at Swinburne Sarawak. You can choose to undertake further studies in accounting, business information systems, international business, marketing, human resource management, multimedia, business marketing, multimedia software development, or computer science and software engineering. Such further studies will provide you with a specialisation and specific skills required for your future career.

Career opportunities

Graduates are equipped for careers in office management, general administration, sales and IT-related positions.

Diploma of Management

Certificate IV in Frontline Management

Campus: Hawthorn, Lilydale, Prahran
Duration: Diploma – Six months
Certificate IV – Six months
Total duration: One year
Intake: February

The qualification aims to develop your innovative and entrepreneurial attitude to management by studying a range of modules designed to enhance advanced skills in management. The qualification develops a sound theoretical knowledge base and practical management competence to plan, carry out and evaluate your own work and that of your team.

Note: these two courses are usually taken in combination. Units from the Certificate IV are prerequisites for the diploma.

Units include
- Manage budgets and financial plans, Recruit, select and induct staff, Develop a business opportunity, Manage industrial relations policies and processes, Manage separation/termination, Manage industrial relations initiatives, Manage performance management.

Pathways

On successful completion of the diploma you may be eligible to gain up to eight exemptions in the Bachelor of Business or Bachelor of Commerce.

Career opportunities

Management of small, medium and large organisations.

Professional recognition

Students and graduates may be eligible to register with the Australian Institute of Management (AIM).

Advanced Diploma of Accounting

Diploma of Accounting

Certificate III in Financial Services (Accounts Clerical)

Campus: Hawthorn
Duration: Advanced diploma – Six months
Diploma – Six months
Certificate III – Six months
Total duration: Eighteen months
Intake: February, July

Students in this course will enhance and refine their knowledge and skills in financial accounting, costing, taxation, and financial management, as well as working with spreadsheets.

Note: these three courses are usually taken in combination. Units from the Certificate III are prerequisites for the diploma and units from the diploma are prerequisites for the advanced diploma.

Units include
- Units at the advanced diploma level include prerequisites from Certificate III and the diploma course, together with a selection from the following: Monitor Corporate Governance, Prepare Complex Financial Reports, Prepare Complex Tax Returns and Lodgement, Prepare and Analyse Management Accounting Information, Evaluate Business Performance, Evaluate an Organisation’s Financial Performance, Produce Complex Spreadsheets, Audit and Report on Financial Systems and Records, Analyse Financial Markets and Information.

Pathways

On successful completion of the advanced diploma you may be eligible to gain up to 12 exemptions in the Bachelor of Business and up to 10 exemptions in:
- Bachelor of Business (Accounting), Bachelor of Commerce or Bachelor of Commerce (Accounting).

Career opportunities

The course provides up-to-date training for a variety of accounting positions such as assistant accountant in a medium to large organisation.

Professional recognition

On completion of the advanced diploma, graduates are eligible for membership of the National Institute of Accountants (NIA).
Diploma of Business Administration
Certificate IV in Business Administration

Campus: Hawthorn, Wantirna
Duration: Diploma – Six months
Certificate IV – Six months

This qualification reflects on the role of students who possess a sound theoretical knowledge base and use a range of specialised, technical or managerial competencies to plan, carry out and evaluate their own work and/or the work of a team.

Units include
- Manage payroll, Manage meetings, Plan and review admin systems, Manage business document design and development, Manage projects, Recruit, select and induct, Ensure team effectiveness, Manage organisational change.

Pathways
- On successful completion of the diploma you may be eligible to gain up to eight exemptions in the Bachelor of Business or Bachelor of Commerce.

Career opportunities
- Graduates are equipped for work as an executive assistant, administrative supervisor/office or in senior administrative positions.

Advanced Diploma of Business (International Business)
Diploma of International Business
Certificate IV in International Trade

Campus: Hawthorn
Duration: Advanced diploma – Six months
Diploma – Six months
Certificate IV – Six months
Total duration: Eighteen months

This course focuses on the strategies involved in moving into overseas markets and the methods used for engaging in overseas business. It offers you the opportunity to apply practical managerial skills to business and commercial enterprises.

Note: these three courses are usually taken in combination. Units from the Certificate IV are prerequisites for the diploma and units from the diploma are prerequisites for the advanced diploma.

Units include
- Build international client relationships; Market goods and services internationally; Profile international markets; Research and report on an import and export venture; Plan and implement a transport and logistics system for an international trade organisation; Apply contract law to international business activities; Manage business activities in an international environment; Review the financial structures and processes in international trade; Establish and maintain an effective trading relationship.

Pathways
- Successful graduates of the advanced diploma may be eligible to obtain up to 12 exemptions in the Bachelor of Business or Bachelor of Commerce.

Career opportunities
- Management positions in shipping and transport, public and private import/export organisations.

Advanced Diploma of Business Management
Specialising in the Retail Industry
Diploma of Retail Management
Certificate IV in Retail Management

Campus: Prahran
Duration: Advanced diploma – Six months
Diploma – Six months
Certificate IV – Six months
Total duration: Eighteen months

This course introduces and prepares you with the vocational skills and knowledge necessary to develop a career in retail management. It emphasises the practical applications involved in the management aspects of operating a retail business.

Note: these three courses are usually taken in combination. Units from the Certificate IV are prerequisites for the diploma and units from the diploma are prerequisites for the advanced diploma.

Units include
- Strategic Planning and Business Management, Retail Customer Management, Merchandise Management, Financial Management, HR Management, Retail Information Systems.

Pathways
- On successful completion of the advanced diploma you may be able to gain exemptions in a number of Swinburne bachelor degrees. Take a look at our Pathways page to see how many exemptions you may receive.

Advanced Diploma of Marketing
Certificate IV in Marketing

Campus: Hawthorn
Duration: Advanced diploma – Six months
Diploma – Six months
Certificate IV – Six months
Total duration: Eighteen months

This course introduces basic marketing concepts, market segmentation and consumer behaviour while developing understanding in law, networking, financial management, and communications. Specialised aspects include product knowledge, marketing management, strategic marketing, market research and advertising strategy.

Note: these three courses are usually taken in combination. Units from the Certificate IV are prerequisites for the diploma and units from the diploma are prerequisites for the advanced diploma.

Units include
- Analyse consumer behaviour for specific markets; Develop product knowledge; Plan market research; Develop organisation marketing objectives; Develop a marketing plan; Manage the marketing process; Evaluate international marketing opportunities; Review and develop business plans; Develop, implement and monitor a marketing campaign.

Pathways
- On successful completion of the advanced diploma you may be able to gain exemptions in a number of Swinburne bachelor degrees. Take a look at our Pathways page to see how many exemptions you may receive.

Career opportunities
- Marketing officer, marketing research officer and management positions in these areas. Further studies may also be undertaken at degree or higher level.

Professional recognition
- On completion of the advanced diploma, graduates are eligible for membership of the Australian Marketing Institute (AMI),

www.international.swinburne.edu.au
Business Degrees at the Lilydale and Sarawak campuses

**Bachelor of Business**

**Campus:** Lilydale, Sarawak*

**Duration:** Three years

**Intake:** Lilydale – February, August
Sarawak – March, August

The Bachelor of Business enables students to: think critically and develop their problem-solving skills; use methods of communication appropriate to business; research issues, analyse information and apply what you have learnt within an academic or professional environment; and develop self-directed and life-long learning skills.

**Major study areas**

- You will be required to undertake a major and either a co-major or two minors. Depending on your choice of major study area/s you have the option to graduate with a Bachelor of Business or one of the following:
  - Bachelor of Business (Finance)
  - Bachelor of Business (Human Resource Management)*
  - Bachelor of Business (International Business)*
  - Bachelor of Business (Management)
  - Bachelor of Business (Marketing)*
  - Bachelor of Business (Public Relations)
  - Bachelor of Business (Tourism and Management), see page 39

* Only those Bachelor of Business programs and associated majors marked with an asterisk are available at the Sarawak campus

**www.swinburne.edu.my/future_students**

* Current mode of offer at Sarawak: two years in Sarawak (Sarawak campus fees) plus one year in Melbourne (Lilydale campus fees).

**Finance:** as the global economy expands into ever-evolving frontiers there is a need for graduates to have the professionally recognised financial skills and qualities that this degree can provide. Students will gain a broad understanding of the structure and operations of financial markets in Australia and globally, together with the theory and techniques underlying financial management.

**Human Resource Management:*** the course provides an understanding of core business functions and dynamics and focuses on sustainable people management in a rapidly changing global business environment. Knowledge is developed in organisational behaviour and local and international human resource management. Graduates will foster a strategic human resource mindset and be better positioned to enhance their contribution to business.

**International Business:** the globalisation of markets is creating additional challenges and opportunities for businesses today. The products we buy, the financial transactions we undertake and jobs we do, are all subject to international business decisions. This course focuses on the development, management and growth of businesses capable of competing in the rapidly changing global marketplace.

**Management:** you will develop an understanding of the alignment between commercial and organisational management and organisational culture. Practical business research skills are used as an aid to business decision making, reporting and communication. Students will also develop skills in managerial accounting, corporate finance, managerial decision making, organisational design, HRM, change management and strategic planning.

**Marketing:** you will be provided with a thorough grounding in business principles specific to marketing. The program includes law, accounting, management, economics and communication. In the final year of the program an expanded knowledge base is brought together to focus on practical and project-based product management, events management, and strategic marketing planning.

**Public Relations:** focuses on protecting and advancing clients’ reputations, through effective communication and relationship building. Students studying PR learn how to build and protect reputations within the corporate world. They focus on the importance of communication in order to reach corporate objectives. They also learn how PR supports the implementation of strategic plans, communication planning and campaign development.

**Work-Integrated Learning (WIL)**

During your studies, Lilydale students can choose to participate in Swinburne’s Work-Integrated Learning program. WIL is an optional program that provides you with experience in developing a real project for industry, without extending the duration of your course.

**Career opportunities**

Depending on the chosen majors, career opportunities are available in a wide range of fields such as accounting, communications, financial advice, human resources, management, marketing, public relations, sales and tourism.

**Professional recognition**

Graduates may gain professional recognition from a range of professional bodies, depending on the area of specialisation and the units selected:
- Australian Human Resources Institute (AHRI)
- CPA Australia (CPA)
- The Institute of Chartered Accountants in Australia (ICAA)
- Institute of Australian Banking and Finance (AIBF)
- Australian Institute of Management
- Australian Marketing Institute (AMI)
- Institute of Corporate Managers, Secretaries and Administrators.

**SAVE 10%**

Study Lilydale Scholarships provide international students with a 10% annual reduction in course fees for the duration of a single degree. See page 2 for more.

**Bachelor of Business (Accounting)**

**Campus:** Lilydale, Sarawak

**Duration:** Three years

**Intake:** Lilydale – February, August
Sarawak – March, August

This program aims to produce graduates who are well-equipped and well-placed to make the transition from university to the changing professional and business environment of the new millennium. In particular, the program produces graduates who are recognised by potential employers as being formally qualified professionals who have the competence and confidence to assume entry roles in accounting practice.

**Units include**

- This course has a prescribed structure:
  - Six Foundation units
  - Ten Accounting specialisation units
  - Two Capstone units
  - Six additional units comprising one minor (four units) and two electives

* Plus one not-for-credit unit, Careers in the Curriculum.

For specific unit information, visit [www.international.swinburne.edu.au/courses](http://www.international.swinburne.edu.au/courses)

**Career opportunities**

Major studies in accounting, combined with other appropriate business units of study, can lead to job opportunities working as a professional accountant in fields as diverse as auditing, liquidation, taxation, management, investment, finance, accounting and information technology. Such opportunities can be found within commerce and industry, accounting firms and the public sector.

**Professional recognition**

This course is recognised by CPA Australia, the Institute of Chartered Accountants in Australia, the Institute of Internal Auditors and the National Institute of Accountants.

Sarawak graduates may also be eligible to join the Association of Chartered Certified Accountants (ACCA) and Chartered Institute of Management Accountants (CIMA) in Malaysia.
The Bachelor of Commerce prepares students for a career in the business profession. The program develops future business leaders who have strong skills in innovation and entrepreneurship. You will begin with an exploration of key fundamental concepts and then have the opportunity to examine components more thoroughly through the selection of a major, co-major or minors.

Major study areas
You will be required to undertake a major and either a co-major or two minors. Depending on your choice of major study area/s you have the choice of graduating with a Bachelor of Commerce or one of the following:

- **Bachelor of Commerce (Commercial Law)**
- **Bachelor of Commerce (Entrepreneurship and Innovation)**
- **Bachelor of Commerce (Finance)**
- **Bachelor of Commerce (Human Resource Management)**
- **Bachelor of Commerce (International Business)**
- **Bachelor of Commerce (Management)**
- **Bachelor of Commerce (Marketing)**

**Commercial Law**: There is increasing industry demand for business and commerce graduates who have undertaken commercial law units, but do not practise as a barrister or solicitor. This course will provide you with an understanding of the importance of law and government regulation in a business or commercial environment. You will gain sound legal problem-solving skills and the ability to assess the impact of law and regulation on a business organisation and its activities.

**Entrepreneurship and Innovation**: It is the recognition of an opportunity, the creation and development of ideas, and the building of ideas into a profitable business venture. This course will equip you with the knowledge and practical skills to establish your own business or enter a range of business professions, to plan strategically, to evaluate opportunities and to source venture capital.

**Finance**: You will delve into the worlds of financial and capital markets, influences on those markets, analysis of investments and sourcing foreign exchange deals, risk management and business investment.

**Human Resource Management**: It is the management and coordination of people to achieve business objectives. Human resources management includes: the recruitment and selection of staff members, managing employee relations, training and development of staff, job evaluation, change management and occupational health and safety.

**International Business**: Through the study of this course, you will discover the importance and effects of culture, politics, trade and business policies, time zone differences, different economic systems, currencies and business customs on an organisation with international interests.

**Management**: You will discover the importance of managers within a business and discover how key resources must be planned, monitored and controlled to best meet strategic business objectives. You will learn to organise and lead others, manage yourself, make creative and well-informed decisions, track resources and progress, evaluate current situations, and be ethical and socially responsible.

**Marketing**: You will discover the significance of marketing in the wider business context, and how business results are achieved through the development and endorsement of a customer focus. You will have the chance to explore the worlds of market research, buyer behaviour, services marketing, marketing planning and advertising and promotion.

**Career opportunities**

- Accountancy, business management, financial management, human resources, marketing and sales management, international trade.

**Professional recognition**

This degree, with the relevant units selected, is recognised by the following legal bodies: Australian Human Resources Institute (AHRI), Australasian Institute of Banking and Finance (AIBF), Australian Institute of Management (AIM), Australian Marketing Institute (AMI), Institute of Corporate Managers, Secretaries and Administrators, Australian Market and Social Research Society (AMSRS).

The Bachelor of Commerce holds a prescribed structure:

- **Six Foundation units**
- **10 Accounting specialisation units**
- **Two Capstone units**
- **Six additional units comprising one minor (four units) and two electives**

Career opportunities

Just some of the many roles graduates may be eligible for are: graduate accountant, account manager, auditor, fund accounting officer and taxation agent, merchant banker, corporate treasurer, investment banker and financial adviser. Graduates could find employment with large or small companies, private practices, government-owned entities and banks.

**Professional recognition**

As a graduate, you may be eligible for membership with these professional organisations:

- CPA Australia, Institute of Chartered Accountants in Australia (ICAA), National Institute of Accountants (NIA),
- Certified Accountants (ACCA), the Association of Chartered Certified Accountants (ACCA), the Institute of Chartered Accountants of Australia (ICAA) and the National Institute of Accountants (NIA),
- Australian Institute of Corporate Managers (AIM),
- Institute of Corporate Managers, Secretaries and Administrators, Australian Market and Social Research Society (AMSRS).

### Degree Transfer Programs

**Unilink Design Degree Transfer Program**
- **Campus:** Prahran
- **Duration:** Eight months
- **Intake:** February, June, October

This course offers you an alternative entry to Bachelor of Design programs. It will help you to develop creative and practical design skills and develop a relevant and modern approach to the role of design in society. The units are similar to those in the first year of the Bachelor program at the Faculty of Design, but the atmosphere is different. Student groups are smaller, with greater contact hours and more opportunity for teacher contact. Unit areas are divided into small modules with a wide variety of projects and experiences delivered over the course of study.

**Degree transfer**
Graduates of Unilink Design who complete eight subjects successfully are guaranteed transfer to second year of Bachelor of Design (Industrial Design), Bachelor of Design (Communication Design), Bachelor of Design (Interior Design), Bachelor of Design (Multimedia Design).

**Units include**

**Career opportunities**
Depending on which area you decide to specialise in, you can work towards careers in areas such as advertising, animation, automotive design, computer-aided design, exhibition design, furniture design, graphic design, merchandising, multimedia, publicity, publishing, set design, theatre design, video game design or web design.

### FOUNDATION STUDIES AND UNILINK are programs designed to prepare you for further study in Australia.
### University Degrees

#### Bachelor of Design (Communication Design)
- **Campus:** Prahran
- **Duration:** Three years
- **Intake:** February, August

The course aims to produce imaginative designers who work effectively in areas where information is primarily conveyed by visual means, such as advertising, publishing, publicity, printing, merchandising, multimedia, education and research. You will learn how to be an effective designer and communicator through a wide variety of visual communication-based projects, together with contextual and professional studies.

#### Industry placement

Industry Placement Industry Placement is open to all high-achieving students and includes a 24 or 48-week work experience placement in a professional design environment. This placement may be based in Melbourne, interstate or internationally. All students accepted into the Industry Placement program must then go on to complete the honours program. Adding an honours year to your course – including the compulsory honours year after the Industry Placement Program – will increase your total course duration to four years.

#### Units include

- Packaging
- Typography
- Multimedia
- Publication
- Image Making
- Design Research
- Design Management
- and Visual Language

#### Career opportunities

Graduates are equipped for careers in design consultancy, advertising, publishing, merchandising, packaging, publication, design research, and design management.

#### Professional recognition

Graduates of the program are eligible for membership of the Australian Graphic Design Association (AGDA) and Associate Membership of the Design Institute of Australia (DIA).

---

#### Bachelor of Design (Industrial Design)
- **Campus:** Prahran
- **Duration:** Three years
- **Intake:** February, August

This course aims to develop your creative and technological aptitude through a user-centred design program supported by business studies, professional practice, consumer knowledge and ethics. You will explore materials and manufacturing techniques with a view to creating product concepts for the future, communicated using industry-standard software and workshop-based prototyping facilities.

#### Industry placement Industry placement

Industry placement is open to all high-achieving students and includes a 24 or 48-week work experience placement in a professional design environment. This placement may be based in Melbourne, interstate or internationally. All students accepted into the Industry Placement program must then go on to complete the honours program. Adding an honours year to your course – including the compulsory honours year after the Industry Placement Program – will increase your total course duration to four years.

#### Units include

- Product
- Furniture and Exhibition Design
- Design Processes: Concept and Form Generation
- Manufacturing Technology
- Computer-Aided Design
- Digital Technology
- Design and Project Management
- Design Management
- and Visual Communication

#### Career opportunities

Graduates are equipped for careers within manufacturing industries or design consultancies, exhibition, environmental and furniture design, or as self-employed designers or manufacturers.

#### Professional recognition

Graduates of the program are eligible for Associate Membership of the Design Institute of Australia (DIA).

---

#### Bachelor of Design (Multimedia Design)

**From Malaysia**

**Brian Chia**

**Bachelor of Design (Multimedia Design)**

I knew I had a creative side, but I never really pursued it when I was young. But after starting a business course, I felt I had no passion for that area, so I decided to pursue design.

Now that I’m nearing completion of Unilink, I plan to follow my passion for graphics and animation with a Bachelor of Design (Multimedia Design).

Before Unilink I didn’t know which design discipline I wanted to get into. Unilink has a range of subjects covering all major disciplines – now I know what I like and what I’m interested in.”

---

**VARY YOUR STUDY LOAD WITH AN OPTIONAL WINTER TERM**

www.international.swinburne.edu.au
Bachelor of Design (Multimedia Design)

**Campus:** Prahran, Sarawak  
**Duration:** Three years  
**Intake:** Prahran – February, August  
Sarawak – March, August

This program prepares students to work with design for digital film production, the world wide web and computer interactive media. The study of time-based sequence design provides students with expertise in animation, 3D modelling, digital video, audio media, and communication design for electronic media.

**Industry placement**

Industry placement is open to all high-achieving students and includes a 24 or 48-week work experience placement in a professional design environment. This placement may be based in Melbourne, interstate or internationally. All students accepted into the Industry Placement program must then go on to complete the honours program. Adding an honours year to your course – including the compulsory honours year after the Industry Placement Program – will increase your total course duration to four years.

**Units include**

**Career opportunities**

Graduates are equipped for careers in design consultancies, information technology companies, media and entertainment studios, advertising agencies, postproduction, animation and web design.

**Professional recognition**

Graduates of the program are eligible for membership of the Australian Graphic Design Association (AGDA), membership of multimedia Industry Network (mmIN) and associate membership of the Design Institute of Australia (DIA).

---

Bachelor of Engineering (Product Design Engineering)

**Campus:** Hawthorn and Prahran  
**Students in this course will study at both the Hawthorn and Prahran campuses.**  
**Duration:** Four years  
**Intake:** February, August

This course combines two traditionally separate fields: engineering and industrial design. Engineering offers scientific and manufacturing knowledge, while industrial design offers a human-centred approach to the design of products. These two areas equip you with the necessary skills to develop products that are internationally competitive in design and quality.

**Units include**

You may also undertake minor study sequences in Manufacturing Engineering, Biomedical Engineering, or Manufacturing Management or choose from various additional specialist study units.

**Career opportunities**

Graduates are equipped for careers in industries dealing in the design, development and manufacture of domestic products or the automobile industry. Their role will be primarily in the area of design, innovation, project management and manufacturing.

**Professional recognition**

Graduates are eligible to apply for membership of Engineers Australia and the Design Institute of Australia (DIA).

---

Bachelor of Film and Television

**Campus:** Prahran  
**Duration:** Three years  
**Intake:** February, August

This course provides comprehensive education for digital outcomes in broadcast film and video post-production, computer/video game development and mobile network telecommunications, particularly in relation to advanced production skills, creative direction and project management. The course equips you with the necessary skills to become an industry practitioner who can adapt to the diverse range of roles created by the ever-changing film industry.

**Industry placement**

Industry Placement is open to all high-achieving students and includes a 24 or 48-week work experience placement in a professional design environment. This placement may be based in Melbourne, interstate or internationally. All students accepted into the Industry Placement program must then go on to complete the honours program. Adding an honours year to your course – including the compulsory honours year after the Industry Placement Program – will increase your total course duration to four years.

**Units include**

- Film and Television Production, Postproduction, Electronic Media, Language and Communication, Typographic Design, New Media, Design Management, Project Management, and Telecommunications.

**Career opportunities**

Graduates are equipped for careers in broadcast film and video post-production, computer/video game development and movie network telecommunications, and scriptwriting.

**Professional recognition**

Graduates of the program are eligible for membership with the Australian Screen Editors Guild, Screenservices Association of Victoria, Australian Graphic Designers Association, Melbourne Art Directors Club, the Screen Producers Association of Australia and the Australian Cinematographers Society.

Simon Colabufalo’s Rocking Chair.
Foundation Studies

Swinburne Foundation Studies (Science/Engineering)
Campus: Hawthorn
Duration: Eight months
Intake: February, June, October

This course equips you for further studies across a range of science and engineering-related areas such as civil engineering, mechanical engineering, aviation, biotechnology, photonics, or telecommunication and internet technologies. It will allow you to develop fundamental communication, IT and finite mathematics skills and to select foundation studies streams in areas such as physics, chemistry, biology, engineering and mathematics.

Units include
- English and Communications Skills;
- Innovations and Change;
- General Mathematics and Information Technology.

Pathways
- On successful completion of this program you will articulate directly into our degree transfer program, Unilink Engineering.
- Or if you have achieved a credit average (65 or better) and would prefer to start your bachelor degree sooner, you can apply for entry into first year.

Career opportunities
- Successful completion leads to bachelor degrees in science, computer science and engineering if you complete the course with the required marks and prerequisite subjects.

Swinburne Foundation Studies (Engineering/Science)
Campus: Sarawak
Duration: One year
Intake: January, March, August

This course equips you for further studies across a range of science- and engineering-related areas such as civil engineering, mechanical engineering, aviation, biotechnology, photonics, or telecommunication and internet technologies. It will allow you to develop fundamental communication, IT and finite mathematics skills and to select foundation-studies streams in areas such as physics, chemistry, biology, engineering, mathematics and computer programming.

Units include
- English and Communications Skills;
- Innovations and Change;
- General Mathematics and Information Technology;
- Science Engineering Mathematics A and B;
- Physics and Chemistry or Biology.

Ministry of Higher Education units
- The Malaysian Ministry of Higher Education units studied, with Academic Culture and Communication, General English and Communication Skills, Moral Studies, Bahasa Kebangsaan.

Degree Transfer Programs

Unilink Engineering
Degree Transfer Program
Campus: Hawthorn
Duration: Eight months
Intake: February, June, October

This course is equivalent to the first year of the Bachelor of Engineering, but the atmosphere is different. Student groups are smaller, with greater contact hours and more opportunity for teacher contact.

Units include
- Academic Culture and Communication;

Degree transfer
- Degree transfer to the second year of the following degrees is guaranteed for students who pass six of the eight units studied, with Academic Culture and Communication and Engineering Culture and Communication counting as one unit: Bachelor of Engineering (Electronic and Electrical), Bachelor of Engineering (Electronics and Computer Systems), Bachelor of Engineering (Robotics and Mechatronics), Bachelor of Engineering (Mechanical), Bachelor of Engineering (Civil), Bachelor of Engineering (Telecommunication and Network Engineering).

Career opportunities
- After completion of the chosen degree, Unilink Engineering graduates may find employment within a wide range of industries, and also in associated areas including project management, project designer, project planner and research.

www.swinburne.edu.au/college

Pathways
- For students who have completed SPM/‘O’ levels or equivalent qualification, this course provides direct entry into the degree courses in the Sarawak campus.

Career opportunities
- With further studies, graduates are equipped for careers in areas such as automation engineering, biotechnology, consumer-electronics design, computer-systems design, electrical engineering, investigation engineering, management, manufacturing, medicine, mining, network administration, photonics, robotics, telecommunications and transport.

www.international.swinburne.edu.au
## TAFE Courses

### Diploma of Electronic Engineering

**Campus:** Sarawak  
**Duration:** Three years  
**Intake:** March, August

This course equips you with the knowledge and skills required for a career in the electrical, electronic, and computer-system engineering industries. It provides a broad background in electronics, with an emphasis on digital technology and the application of microprocessor-controlled circuitry, communications and analogue electronics. It will prepare you to face the challenges of the ever-changing workplace by developing your ability to acquire new skills and knowledge.

**Units include**  

**Ministry of Higher Education units**  
The Malaysian Ministry of Higher Education requires Malaysian students to successfully complete the following Compulsory Subjects (Mata Pelajaran Wajib) prior to graduation, at no extra cost: Malaysian Studies, Islamic Studies/Moral Studies, Bahasa Kebangsaan.

**Career opportunities**  
Graduates are equipped for careers as technical officers performing operation, planning, analysis and supervision in relevant industries. The course can also be a pathway to one of Swinburne’s engineering degree programs.

### Advanced Diploma of Computer Systems Engineering

**Campus:** Hawthorn  
**Duration:** Two years  
**Intake:** February

This course is designed to give you a sound background in application of hardware and software components of modern computing systems including network technologies.

The course will cover the disciplines of PC hardware and software, networking technologies, network server administration, programming and management of personnel.

**Units include**  
- Management, WEB Programming, Network Administration, PC Hardware and Software, Electrotechnology, Basic Digital Principles and Networking. This includes CISCO Exploration, CISCO IT Essentials and one CISCO CCNP Module.

**Pathways**  
Successful graduates of this program can obtain exemptions of up to 12 units of study in the Bachelor of Information and Communication Technology, or up to 10 units of study in the Bachelor of Information and Communication Technology (Network Design and Security); or up to nine units of study in the Bachelor of Engineering (Telecommunication and Network Engineering), Bachelor of Engineering (Telecommunication and Network Engineering)/Bachelor of Science (Computer Science and Software Engineering); up to eight units of study in the Bachelor of Engineering (Electrical and Electronics Engineering) and the Bachelor of Engineering (Electronics and Computer Systems).

**Career opportunities**  
Graduates of this advanced diploma may gain employment as an engineering officer who performs design, manufacture, analysis, supervision and engineering liaison. Other opportunities include a systems manager or support officer for computer systems. Typical work functions include the design, election, installation, commissioning and repair of computer systems, local and wide area networks and the supervision of others in this field.

**Professional recognition**  
Upon successful completion, candidates are eligible to apply for associate membership of Engineers Australia.

### Advanced Diploma of Electronics and Communications Engineering

**Campus:** Hawthorn  
**Duration:** Two years  
**Intake:** February

This course gives you a broad background in electronics, with an emphasis on digital technology and the application of microprocessor-controlled circuitry, communications and analogue electronics. Graduates will be able to provide technical leadership in the workplace, and design, commission, test, evaluate and diagnose faults in advanced electronic systems and associated apparatus.

**Units include**  

**Pathways**  
Successful graduates of this program may obtain exemptions into the Bachelor of Engineering (Telecommunication and Network Engineering).

**Career opportunities**  
Graduates of this course may gain employment as a technical officer who performs planning, design, analysis, supervision or engineering liaison. Other opportunities include manufacturing, maintenance and design of industrial and medical equipment. The course also provides a foundation for further study towards a degree.

**Professional recognition**  
Graduates are eligible to apply for associate membership of Engineers Australia.

### Advanced Diploma of Engineering Technology

**Campus:** Hawthorn  
**Duration:** Two years  
**Intake:** February, July

The course aims to equip you with the knowledge and skills required for a career in manufacturing and mechanical control engineering. The course also provides para-professional level training for the mechanical and manufacturing industry, with a major emphasis on automation systems. You can choose to specialise in Robotics and Mechatronics or Mechanical Engineering.

**Units include**  

**Mechanical Engineering stream:**  

**Career opportunities**  
Tool design, drafting technician, production supervisor or planner or controller, estimator, plant and equipment sales technical officer.

**Professional recognition**  
While enrolled in this course students receive free membership of Engineers Australia. Upon successful completion, candidates are eligible to apply for associate membership of Engineers Australia.

---

### Did You Know?

Swinburne engineering courses are accredited by Engineers Australia and internationally recognised through the Washington Accord.
Bachelor of Aviation
Campus: Hawthorn
Duration: Three years
Intake: February, August

This course prepares you for a career in the air-transportation industry as a professional pilot. The course incorporates the theory units required by the Australian Civil Aviation Safety Authority (CASA) up to Air Transport Pilot Licence standard.

Additional costs
In addition to course fees, students pay flying-school fees to Oxford Aviation Academy. Flying-school fees are based on the student training towards the single-engine commercial pilot licence and Command Instrument Rating as well as associated equipment and uniforms. Any requirements for additional endorsements, ratings or approvals will be charged additionally.

2009 flying school fees:
A$70,430, payable in half-yearly instalments, with the first instalment of A$26,800 payable at enrolment.

There is also a further A$7563 of expected additional costs made up of:
- Flying Training Textbooks and Equipment fee A$4595
- CASA Exam Fees A$2518
- Medical issue SPL and ASC Fees A$450

Note that these fees may increase in 2010. For more information visit: www.swinburne.edu.au/aviation

Units include

Career opportunities
Graduates are equipped for careers in such areas as airline management, flight operations, ground operations, management, operations and planning, and aviation consultancy, charter firms, regulatory and safety services and safety authorities.

Bachelor of Aviation
(Management)
Campus: Hawthorn
Duration: Three years
Intake: February, August

This course prepares you with the necessary training to pursue non-flying professional careers in the airline and airport industries.

Units include

Career opportunities
Graduates are equipped for careers in such areas as airline management, flight operations, ground operations, management, operations and planning, and aviation consultancy, charter firms, regulatory and safety services and safety authorities.

Bachelor of Engineering
(Biomedical Engineering)
Campus: Hawthorn
Duration: Four years
Intake: February, August

This course is designed to maximise your career choices through combined studies of electrical engineering, mathematics and computer systems with the physical aspects of human physiology and biophysics. Focusing on clinical care and biomedical monitoring, the course is designed to enable you to solve problems in bioinstrumentation, biomechanics, medical imaging, rehabilitation engineering and systems physiology. Studies include specialist theoretical and practical study of the functional aspects of the human body as well as study of the instrumentation and technologies required in clinical care and other monitoring environments.

Units include
- Biophysics; Cell Function; Cardiology; Respiratory Function; Neuroscience; Electronic, Biomedical and Science Instrumentation and Monitoring Systems; Medical Imaging; Physiological Modelling; Microprocessors and Computer Systems; Digital Signal and Image Processing; and Automatic Control and Mechatronics.

Career opportunities
The demand for a biomedical engineer’s expertise in engineering science, biological science and medical science has significantly increased in the past decade due to the growth and complexity of new technologies. The scope of the field is enormous: from cardiac monitors to clinical computing, artificial hearts to contact lenses, wheelchairs to artificial tendons, modelling dialysis therapy to modelling the cardiovascular system. Alternatively, graduates may choose to work as an electrical engineer.

Professional recognition
Graduates are eligible to apply for graduate membership of Engineers Australia.

Bachelor of Engineering
(Civil Engineering)
Campus: Hawthorn, Sarawak
Duration: Four years
Intake: Hawthorn – February, August, Sarawak – March, August

Civil engineering deals with the design, construction, sustainability and improvement of the built environment, providing the technical expertise and management skills to plan, design, construct and maintain facilities such as buildings, bridges, dams, water-supply systems, waste-treatment systems, road and rail networks, and air and sea ports.

Units include

Career opportunities
Graduates are equipped for careers in planning, design, construction management, administration, investigation and research engineering.

Professional recognition
Graduates are eligible to apply for graduate membership of Engineers Australia.
This broad-based course allows you to master the basic engineering principles underlying electrical and electronic engineering, with emphasis on electronic- and microcontrollers-based design, operation and control of electrical machines, power-system generation and distribution, and systems modelling, automation and control.

**Units include**
- Digital Electronics Design

**Career opportunities**
Graduates are equipped for careers in a wide spectrum of industries including automotive, robotics, aerospace, power industry, electronic appliances, telecommunications, defence, manufacturing and industrial research.

Contributions can be made to these industries in a variety of roles including design engineer, project planner, product designer and project manager.

**Professional recognition**
Graduates are eligible to apply for graduate membership of Engineers Australia.

**Bachelor of Engineering (Electronics and Computer Systems)**

**Campus:** Hawthorn, Sarawak

**Duration:** Four years

**Intake:** Hawthorn – February, August, September

The September intake is only available to students progressing from Unilink Engineering Sarawak – March, August

This course provides professional career opportunities in dynamic high-technology areas including the overlapping fields of computer hardware and software, telecommunications, electronics and electrical systems.

**Units include**
- Analogue Electronics Design

**Career opportunities**
Graduates are equipped for careers in telecommunications, automotive, robotics, embedded computing, medical imaging systems, telecommunications, defence, power industry, aerospace, electronic appliances, manufacturing and chip design, and industrial research. You may find employment in these areas as design engineer or software engineer, system developer, project planner, product designer and project manager.

**Professional recognition**
Graduates are eligible to apply for graduate membership of Engineers Australia.

**Bachelor of Engineering (Mechanical Engineering)**

**Campus:** Hawthorn, Sarawak

**Duration:** Four years

**Intake:** Hawthorn – February, August, September

The September intake is only available to students progressing from Unilink Engineering Sarawak – March, August

Mechanical engineering deals with the design, manufacture and maintenance of machine components and systems, from small domestic products to highly complex power generation, vehicle and aerospace systems. Mechanical engineers need to respond to a changing world dominated by advances in technology. Their combination of broad engineering knowledge and detailed expertise in specialist fields enables them to harness these changes.

**Units include**

**Career opportunities**
Employment may be found in many areas of industry and commerce including: automotive, aviation, transport, power, manufacturing, materials processing, appliance production, mechanical building services, mining and raw material conversion. The mechanical engineer’s contributions can include design, development, testing, innovation, project management, planning, research, quality control, and engineering management.

**Professional recognition**
Graduates are eligible to apply for graduate membership of Engineers Australia.

**Bachelor of Engineering (Product Design Engineering)**

**Campus:** Hawthorn and Prahran

**Students in this course will study at both Hawthorn and Prahran campuses**

**Duration:** Four years

**Intake:** February, August

This course combines two traditionally separate fields: engineering and industrial design. Engineering offers scientific and manufacturing knowledge, while industrial design offers a creative approach to the design of products. These two areas equip you with the necessary skills to design products that are internationally competitive.

**Units include**
- Design Studio, Mechanical Design, Design for Manufacture, Project Management, Sustainable Design and Human-Centred Design.

**Career opportunities**
Graduates have a wide spectrum of employment opportunities in both the design and engineering fields. They are equipped to work as engineering designers in the automotive, whitegoods and household appliances industries, or in industrial design consultancies as product designers. Their role will be primarily in the area of design, innovation, project management and manufacturing.

**Professional recognition**
Graduates are eligible to apply for membership of the Design Institute of Australia (DIA) and graduate membership of Engineers Australia.
This course aims to produce graduates who can cross the traditional boundaries between mechanical systems, machines, computer hardware and software, control and electronic design. You can choose to focus your career in any one of these fields or meet growing employment demand for multiskilled graduates from an industry that is pushing the limits of technology by exploiting the growing convergence of these fields: The most obvious growth area is robotic systems, encompassing automated assembly plants to driver-less vehicles.

Units include
- Mechatronics Design
- Computer-Aided Engineering
- Computing
- Electronics
- Ergonomics
- Human Sciences
- Mechanical Design
- Software Engineering
- Industrial Automation

Career opportunities
Graduates are equipped for careers in a wide spectrum of industries including robotics, aerospace, chemical, defence, automotive, appliance manufacturing and industrial research. Contributions can be made to these industries in a variety of roles including design engineer, project planner, product designer and project manager.

Professional recognition
Graduates are eligible to apply for graduate membership of Engineers Australia. This course has also been professionally accredited by Board of Engineers Malaysia (BEM) (Sarawak students only).

Career opportunities
This course aims to produce graduates who have a professional understanding of the science and engineering principles underlying telecommunication and network engineering, and an ability to apply that knowledge. You will develop skills in radio frequency telecommunications with specialisation in wireless secure communications, advanced-level networking with a strong emphasis on security, digital and analogue electronics, software programming and mathematics. Detailed theoretical learning is coupled with extensive practical experience in various aspects of networking and signal analysis used in the telecommunications/networking field.

Units include
- Telecommunication Technologies
- Engineering
- Security
- Mathematics
- Software Development and Engineering
- LAN Principles
- Networks
- Digital Electronics Design
- Photonics and Fibre Optics
- IP Technologies
- Circuits
- Embedded Microcontrollers
- Internet Technologies
- Routing and Switching
- Electromagnetic Waves
- UNIX
- Telecommunications
- Digital Signal and Image Processing.

Contact admissions. See page 49 for details.

*Exemptions granted are based on an assessment of the previous program undertaken and the grades obtained.
If you are the type of person who wants to extend a hand, then Swinburne offers a range of health and community services courses, all of which are taught in a supportive and communicative environment.

**TAFE Courses**

**Diploma of Children’s Services**

- **Campus:** Croydon, Prahran
- **Duration:** Two years
- **Intake:** February, July

This course is designed to provide you with the skills, knowledge and understanding required to work with children as a fully qualified childcare professional. You will provide care for the social, emotional, physical and educational needs of infants and children, specialising in children 0–6 years. You will also gain knowledge of development of children from 6–12 years.

**Units include**
- Developmental Studies
- Health Studies
- Program Play and Curriculum Studies
- Professional Studies
- Family and Community Studies.

**Pathways**

Successful graduates of this course may be able to obtain exemptions of up to eight units of study in the Bachelor of Social Science at either Hawthorn or Lilydale campus.

**Career opportunities**

Graduates may find employment in childcare centres where they are responsible for providing a program of care and education to children under six years old. They may work independently or in a supervisory role with other childcare assistants. Some graduates gain positions in family day care schemes, infant care settings, private homes, pre-school play centres, out-of-school-hours programs and some work as aides with children with additional needs. Future career paths lead to management and coordination positions in child and family services.

**Diploma of Community Development**

- **Campus:** Prahran
- **Duration:** Two years
- **Intake:** February, July

**Special requirements:** to graduate from this program you will be required to successfully complete clinical placements. Clinical placements provide unpaid work experience. The Australian Department of Health Services requires all students undertaking a clinical placement to obtain police clearances and checks. Therefore, to enrol in the program, you must obtain a police clearance/check for each country in which you have resided during the last 10 years where the period of residence was 12 months or longer (in total), and you were aged 16 years or over at the time of residence. Originals of police clearances/checks must be provided at the point of accepting an offer for the course. Note that police clearances/checks are only valid for 12 months from the date of issue and the originals submitted will not be returned to you, so you should make copies for your own records.

This course is designed to provide graduates with the skills, knowledge and understanding necessary to work with communities that experience disadvantage and discrimination. Students will learn how to identify and understand people and groups who are affected by social problems, and help them work to achieve social change.

**Units include**
- Community Development
- Communication Skills
- Networking
- Occupational Health and Safety
- Research
- Community Information Systems and Resources
- Advocacy for Clients
- Group Activities
- Sociological, Political and Economic Theory
- Human Rights and Advocacy
- Social Action
- Community Leadership Skills
- Program Development
- Research
- Policy Development.

**Pathways**

On successful completion of this course you may be able to gain exemptions in a number of Swinburne bachelor degrees. Take a look at our Pathways page to see how many exemptions you may receive.

www.international.swinburne.edu.au/pathways

**Career opportunities**

Community development workers work in a range of community environments including community houses, women’s groups, ethnic groups, youth groups, action groups, environmental groups, trade unions and housing groups. They are involved in advocacy work, community planning, project development and management, resource provision, policy development, community engagement and community capacity building.

**Professional recognition**

This is a nationally accredited diploma and has recognition across Australia. Students are also eligible for membership of the Australian Institute of Welfare and Community Workers (AICW) – the national professional association for community development and welfare workers.

---

SWINBURNE’S COMMUNITY SERVICES COURSES can help you make a difference in your community

Swinburne University of Technology
Diploma of Community Welfare Work

Campus: Croydon, Prahran
Duration: Two years
Intake: February, July

Special requirements: To graduate from this program, you will be required to successfully complete clinical placements. Clinical placements provide unpaid work experience. The Australian Department of Health Services requires all students undertaking a clinical placement to obtain police clearances and checks. Therefore, to enrol in the program, you must obtain a police clearance/check for each country in which you have resided during the last 10 years where the period of residence was 12 months or longer (in total), and you were aged 16 years or over at the time of residence. Originals of police clearances/checks must be provided at the point of accepting an offer for the course. Note that police clearances/checks are only valid for 12 months from the date of issue and the originals submitted will not be returned to you, so you should make copies for your own records.

This course is designed to equip participants with the skills, knowledge and understanding to work in community welfare. Graduates provide a holistic approach to client needs including social, emotional, psychological and practical support. They also develop knowledge and skills of specific client needs and the operation of the community welfare sector.

Units include:
- Case Management
- Program Development
- Group Work
- Advocacy
- Community Development
- Communication Skills
- and other strategies and interventions relevant to the community services industry.

Pathways
On successful completion of this course you may be able to gain exemptions in a number of Swinburne bachelor degrees. Take a look at our Pathways page to see how many exemptions you may receive.

www.international.swinburne.edu.au/pathways

Career opportunities
Graduates may find employment as: case worker, case manager, child protection worker, family support worker, homeless worker, youth and family support worker, migrant resource and support worker, community health worker, juvenile justice worker, drug and alcohol worker, mental health support worker.

Professional recognition
Graduates are eligible for registration with the Australian Institute of Welfare and Community Workers (AICW).

“Takayo Someda
Diploma of Children’s Services
from Japan

It is my passion to work with children and I love watching children grow. In the future, I would like to open a bilingual childcare centre.

My advice to other students is to stay positive. Even if English is your second language, you can draw on the skills learned in your first language. Utilise your knowledge and experience.”

Learn from experienced practitioners at Swinburne
At Swinburne we offer study options in the rapidly growing areas of hospitality, tourism and event management. Students will develop a range of skills in their chosen field and gain a broad awareness and understanding of the industry.

TAFE Courses

**Advanced Diploma of Events**

**Diploma of Events**

**Certificate III in Events**

**Campus:** Prahran

**Duration:**
- Advanced diploma – Six months
- Diploma – Nine months
- Certificate III – Nine months

**Total duration – Two years**

**Intake:** February

This course is designed to prepare you with the skills and knowledge for employment in a cross-section of event management and hospitality (event/function coordination) enterprises. The core units provide the knowledge and basic skills required in the broad business environment, while the management stream extends these foundations as they apply in the operation of small and medium-sized organisations. A focus on experiential learning is applied through participation in major events, festivals and exhibitions.

**Note:** these three courses are usually taken in combination. Units from the Certificate III are prerequisites for the diploma and units from the diploma are prerequisites for the advanced diploma.

**Units include**
- Tourism Industry Knowledge
- Workplace Procedures, Administration, Communication, Information Technology
- Food and Beverage Service, Product Information

**Pathways**

Successful graduates of the advanced diploma may be able to obtain exemptions of up to eight units of study in the Bachelor of Business (Tourism and Management).

**Career opportunities**

Employment in areas such as meeting and conference administration, registration or supervision and event management.

---

**Advanced Diploma of Tourism**

**Campus:** Llidydale

**Duration:** Two years

**Intake:** February

This qualification provides the skills and knowledge for an individual to be competent in wide-ranging, highly specialised technical tourism skills covering operations, sales, marketing, product development, business planning, and human resource and financial management. These strategic management skills are underpinned by a range of operational competencies.

Work would be undertaken in an office environment where the planning of tourism products and services takes place, in the field where tourism products are delivered or a combination of both. The field includes any destination, local or regional area, tourist precinct, site, attraction or onboard form of transportation.

The qualification reflects the role of individuals who analyse, design and execute judgements using wide-ranging technical, creative, conceptual or managerial competencies.

**Units include**
- Occupational Health and Safety
- Customer Service/ Food and Beverage
- Tour Guiding, Tourism Management

**Pathways**

On successful completion of this course you may be able to gain exemptions in a number of Swinburne bachelor degrees. Take a look at our Pathways page to see how many exemptions you may receive.

**Career opportunities**

Employment in areas such as meeting and conference administration, registration or supervision and event management.
Advanced Diploma of Hospitality  
Certificate III in Hospitality (Commercial Cookery)  
Campus: Lilydale, Prahran  
Duration:  
Advanced diploma – One year  
Certificate III – One year  
Total duration – Two years  
Intake: February, July  
In addition to course fees, an annual materials fee of approximately A$2500 is payable.

This qualification specialises in the commercial cookery sector (Certificate III in Hospitality (Commercial Cookery)) and provides the skills and knowledge for an individual to be competent as a senior manager in any hospitality functional area. This individual would analyse, design and execute judgements using wide-ranging technical, creative, conceptual or managerial competencies. Their knowledge base may be specialised or broad and they are often accountable for group outcomes.

Work would be undertaken in various hospitality settings, such as restaurants, hotels, catering operations, motels, clubs, pubs, cafes and coffee shops.

Note: these two courses are usually taken in combination. Units from the Certificate III are prerequisites for the advanced diploma.

Units include  
Kitchen operation, Commercial cookery, Hospitality industry knowledge, Administration, Communication and teamwork, Financial management, Human resource management, Occupational health and safety, Quality customer service, Leadership, Inventory control, Business operations and planning, Business compliance, Marketing and public relations.

Pathways  
Successful graduates of the advanced diploma may be able to obtain exemptions of up to 12 units of study in the Bachelor of Business (Tourism and Management).

Career opportunities  
Employment in hospitality operations at a supervisory/management level or further study at degree level. Individuals with this qualification are able to perform roles such as: senior manager in a large hospitality enterprise, owner or manager of a hospitality enterprise. Possible job titles include: food and beverage manager, area manager or operations manager, rooms division manager, executive housekeeper, secretary or manager, executive chef, cafe owner or manager, motel owner or manager.

VIVEK KHETARPAL  
ADVANCED DIPLOMA OF HOSPITALITY  
from India

"I am currently studying the Advanced Diploma of Hospitality, and then will continue on to the Bachelor of Business (Tourism and Management). The advanced diploma is a blend of commercial cookery and business technology studies. I believe that this course will help me greatly in getting a global job."

University Degrees  

Bachelor of Business (Tourism and Management)  
Campus: Lilydale  
Duration: Three years  
Intake: February, August  
This course aims to give students a thorough grounding in general business principles specific to tourism theory and practice. Opportunities in the tourism industry exist for graduates. This course prepares graduates to operate in diverse environments, confront challenges, and find solutions in the tourism industry.

You may also undertake a co-major from the range available as part of the Bachelor of Business. See page 26 for more information.

Units include  

Career opportunities  
Graduates can look forward to securing employment in the public or private sectors, working in museums, national parks, airlines, wholesale tour companies, regional tourism offices, tourist resorts, conference and reception centres.

DID YOU KNOW?  
Lilydale is the gateway to the Yarra Valley tourist region.
Information and Communication Technologies

As a recognised leader in ICT education, Swinburne has moved with the times and developed a range of programs that are sensitive to the demands of the modern information economy. This ensures our graduates are confident, business-savvy, work-ready professionals.

Foundation Studies

Swinburne Foundation Studies (Information Technology/Multimedia)

- **Campus:** Hawthorn
- **Duration:** Eight months
- **Intake:** February, June, October

This program prepares you for further studies in IT and multimedia-related fields, such as information systems and multimedia integration. You will develop fundamental communication, mathematics, and multimedia design skills, and be introduced to specialised areas such as computer programming, microcomputer systems and digital imaging.

**Units include**
- English and Communications Skills
- Mathematics, Information Technology
- Multimedia, Programming and Science

**Degree transfer**
Successful completion of this course guarantees you entry into our Degree Transfer Program, UniLink Information Technology, or if you have achieved a credit average (65% or better) and would prefer to start your bachelor degree in Multimedia or ICT sooner, you can apply for entry into first year of the: Bachelor of Information and Communication Technology, Bachelor of Information and Communication Technology (Network Design and Security), Bachelor of Information and Communication Technology (Games Development), Bachelor of Business Information Systems, or any of the Multimedia degrees listed on page 45 of this guide.

**Career opportunities**
Graduates may look forward to a career in database administration, electronic publishing, information architecture, internet systems development, online entertainment, multimedia application design, software development, network security, systems analysis or web design.

www.swinburne.edu.au/college

Degree Transfer Programs

Unilink Information Technology Degree Transfer Program

- **Campus:** Hawthorn
- **Duration:** Eight months
- **Intake:** February, June, October

This course is equivalent to the first year of a bachelor degree in IT, but the atmosphere is different. Student groups are smaller and this means you will have more opportunities for teacher contact.

**Degree transfer**
Transfer to second year of the following degrees is guaranteed for students who pass all units studied, with Academic Culture and Communication and Business Data and Communication counting as one unit: Bachelor of Information and Communication Technology and Bachelor of Business Information Systems.

**Units include**
- Compulsory units: Academic Culture and Communication; Information Technology Culture and Communication; Internet Technologies; Introduction to Business Information Systems; Database Analysis and Design; Requirements Analysis and Modelling; Business Data Communications and Networks and; Introduction to Programming.Net.

**Elective units:** The Marketing Concept, and Organisation and Management.

**Career opportunities**
You can look forward to a career in database administration, electronic publishing, information architecture, internet systems development, online entertainment, multimedia application design, project management, software development, network security, systems analysis, web design and more.

www.swinburne.edu.au/college

FUNDAMENTAL SKILLS AND BASES

are programs designed to prepare you for further study in Australia. See page 13 for details.
TAFE Courses

Diploma of Information Technology (Multimedia)
Certificate IV in Information Technology (Multimedia)
Campus: Hawthorn
Duration: Diploma — One year
Certificate — One year
Total duration: Two years
Intake: February

This course has been developed with industry assistance to provide a broad range of skills required for entry into the multimedia industry. It covers all aspects of multimedia presentations including web programming, 2D and 3D animation, digital video and multimedia management.

Note: these two courses are usually taken in combination. Units from the Certificate IV are prerequisites for the diploma.

Units include

Pathways
Successful graduates of the diploma can obtain exemptions of up to eight units of study in the Bachelor of Multimedia, Bachelor of Multimedia (Business Marketing), Bachelor of Multimedia (Games and Interactivity)/Bachelor of Information and Communication Technology or Bachelor of Multimedia (Media Studies) or up to 10 units of exemptions in the Bachelor of Information and Communication Technology.

Career opportunities
A person with the competencies gained in this course could work as a web designer, or in the areas of multimedia development and online services.

Diploma of Information Technology (Networking)
Certificate IV in Information Technology (General)
Campus: Hawthorn
Duration: Diploma — One year
Certificate — One year
Total duration: Two years
Intake: February

This course provides the skills to build and manage network systems in a business environment. Emphasis is placed on practical skills using a hands-on approach. Areas of study include CSICO, security, internetworking, SQL database management, Linux, Microsoft and Novell operating systems.

Note: these two courses are usually taken in combination. Units from the Certificate IV are prerequisites for the diploma.

Units include

Pathways
Successful graduates of the diploma can obtain exemptions of up to 12 units of study in the Bachelor of Information and Communication Technology.

Career opportunities
The course prepares students for employment in network administration, system management, helpdesk and IT support. Alternatively, students are well prepared to continue to degree studies in relevant areas of computing.

Diploma of Information Technology (Software Development)
Incorporating: Certificate IV in Information Technology (Programming)
Campus: Hawthorn
Duration: Diploma — One year
Certificate — One year
Total duration: Two years
Intake: February

This course is designed to provide students with the skills needed to work in the IT industry as programmers/analysts/designers, and/or to continue to higher education courses in computer science, information systems or IT security. The course covers communication skills, object-oriented programming in a number of languages, object-oriented systems analysis and design, quality and project management, markup languages, client-side and server-side programming.

Units include

Advanced Diploma of Computer Science (Multimedia, Instrumentation, Software Development and Network Analysis)
Campus: Hawthorn
Duration: Two years
Intake: February, July

This course introduces you to fundamental and advanced techniques used in scientific instrumentation, software development, network analysis and multimedia within the computer science industry. The course has been designed to meet the needs of industry, and allows you to concentrate on your designated field of either multimedia technology, scientific instrumentation, network analysis or software development.

Units include

Pathways
Successful graduates of this program can obtain up to 12 exemptions in the Bachelor of Information and Communication Technology; or up to eight exemptions in the Bachelor of Business Information Systems, Bachelor of Engineering (Telecommunication and Network Engineering), Bachelor of Engineering (Telecommunication and Network Engineering)/Bachelor of Science (Computer Science and Software Engineering), Bachelor of Multimedia, Bachelor of Multimedia (Business Marketing), Bachelor of Multimedia (Games and Interactivity)/Bachelor of Science (Computer Science and Software Engineering) or Bachelor of Multimedia (Media Studies); or up to six exemptions in the Bachelor of Science (Biomedical Sciences); or up to five exemptions in the Bachelor of Engineering (Biomedical Engineering).

Career opportunities
Graduates of the advanced diploma will have increased employment opportunities to work in the following, dependent on their choice of stream; full customisation of graphical user interface design for associated scientific industries; full webpage design, management implementation and maintenance for industries; multimedia authoring for production of interactive multimedia displays; CD presentation for technical applications and promotional material for in-house training; object-oriented programmer in Java, C++, Visual Basic for scientific applications to related industries; data acquisition and sensor design in associated industries.
University Degrees

**Bachelor of Business Information Systems**

**Campus:** Hawthorn, Sarawak  
**Duration:** Three years  
**Intake:** Hawthorn – February, August, September  
*The September intake is only available to students progressing from Unilink Information Technology Sarawak – March, August*

This course has been designed to produce information- and business-savvy graduates. It provides a sound background in advanced problem solving, information analysis and project management, preparing you for immediate entry into the management of business information systems in organisations. You will develop technical skills, but more emphasis will be placed on business analysis and problem solving, systems analysis, project management, the provision of IS services, and the management of information systems in organisations. Specialisations are available in Systems Management or Systems Development.

**Units include**  

**Career opportunities**  
Graduates are equipped to pursue careers in business and systems analysis, business process analysis, business requirements analysis, project management, enterprise systems consultancy, IS/IT consultancy, business relationship management, business development management, and, when you have gained experience, as an IT director or chief information officer.

**Professional recognition**  
This course is accredited at the professional level with the Australian Computer Society (ACS). The program has been externally vetted by ACS, ensuring it meets the highest standard of the profession and the industry.

**GET A 15% DISCOUNT**  
On the Master of Information Technology tuition fee when you apply for the Bachelor of Science (Information Technology) at the same time

---

**Bachelor of Business Information Systems/ Bachelor of Commerce**

**Campus:** Hawthorn  
**Duration:** Four years  
**Intake:** February, August  

This double degree combines specialist studies in information systems (IS) with a full commerce degree, leading to a choice of a generalist or specialist career using IS to solve business problems. IS expertise in areas such as business and systems analysis, project management, the provision of IS services, and the management of information systems is combined with a major in commerce in one of the following disciplines: accounting, finance, entrepreneurship and innovation, human resource management, international business, management or marketing.

**Units include**  

**Career opportunities**  
Graduates are equipped to pursue careers in business and systems analysis, business process analysis, business requirements analysis, project management, enterprise systems consultancy, IS/IT consultancy, business relationship management, business development management, and, when you have gained experience, as an IT director or chief information officer.

**Professional recognition**  
The Bachelor of Business Information Systems is accredited at the professional level with the Australian Computer Society (ACS). The program has been externally vetted by ACS, ensuring it meets the highest standard of the profession and the industry.

---

**Bachelor of Information and Communication Technology**

**Campus:** Hawthorn  
**Duration:** Three years  
**Intake:** Hawthorn – February, August, September  
*The September intake is only available to students progressing from Unilink Information Technology Sarawak – March, August*

The course combines studies in software development, business information systems and computer networks. The program has a flexible structure allowing students to choose from a number of computing majors, co-majors, minors and advanced minors. Information and Communication Technology majors are available in the areas of Software Technology, Business Computing, Network Design and Security, Multimedia and Games Development. The program will suit those students who are seeking a general Information and Communication Technology (ICT) program with flexible outcomes. Eligible students will be able to select from a diverse range of offerings from other discipline areas and approved ICT advanced minors.

**Degree transfer**  
The flexibility of this program provides enhanced credit arrangements for students articulating from TAFE diplomas.  
www.international.swinburne.edu.au/courses/pathways

**Units include**  

**Career opportunities**  
Graduates of this course will be equipped to seek employment in careers such as Flash developer, game engine programmer, visual effects developer, software designer, database programmer, enterprise systems application developer or project manager. You will also have developed extensive skills in software development, combined with experience in a broad range of creative and design aspects of multimedia and internet technologies.

**Professional recognition**  
This degree is accredited at the Professional Level with the Australian Computer Society (ACS). The program has been externally vetted by ACS, ensuring it meets the highest standard of the profession and industry.
This course has been designed to meet growing industry demand for security specialists who are competent in, and knowledgeable about, computer network technologies and security. The program has a flexible structure allowing students to choose from a number of computing majors, co-majors, minors and advanced minors. You will study the fundamentals of computing including programming, database, internet technologies, systems analysis and design, and software engineering, as well as advanced topics in computer networks and security. Through the coursework you will gain confidence evaluating and managing business information systems and security projects, and have an understanding of the complexities and methodologies associated with software development with a comprehensive knowledge of internet security.

The program also has a strong industry focus with units that prepare students for professional certification in Cisco Certified Network Associate (CCNA) and Microsoft Certified Information Technology Professional (MCITP).

Units include
- Career opportunities
  - Skills in network design and security are in high demand and can lead to a range of career outcomes including, information security analyst, network security practitioner, information security professional, IT systems administrator, embedded software systems designer, protocol designer, network administrator or IT systems administrator.
  - Professional recognition
    - This course is accredited at the professional level with the Australian Computer Society (ACS). The program has been externally vetted by ACS, ensuring it meets the highest standard of the profession and the industry.

**DIMAZ PRAMUDYA BACHELOR OF SCIENCE (COMPUTER SCIENCE AND SOFTWARE ENGINEERING) from Indonesia**

"I chose this course on the strength of Swinburne’s reputation as one of the best universities in Australia for computer science. I particularly enjoyed the hands-on nature of the course and the teaching staff were awesome.

During my studies I got involved in the Imagine Cup – an annual competition touted as the tech-equivalent to Australian Idol – and our team won the Australian final!

Winning Imagine Cup has been a great experience, it really opened our eyes to environmental issues."

**www.international.swinburne.edu.au**
Multimedia

Multimedia at Swinburne is more than just theory. It’s practical and applied, exploring the integration of graphics, animation, text, sound and video with the interactive power of the computer and communications potential of the internet.

Foundation Studies

**Swinburne Foundation Studies (Information Technology/ Multimedia)**

**Campus:** Hawthorn  
**Duration:** Eight months  
**Intake:** February, June, October

This program prepares you for further studies in IT and multimedia fields, such as information systems and multimedia integration. You will develop mathematics, communication, and multimedia design skills, and be introduced to areas such as microcomputer systems, computer programming, and digital imaging.

**Units include**
- English and Communications Skills
- Innovations and Change
- General Mathematics
- Information Technology
- Multimedia Programming 1 and 2
- Science/Engineering Mathematics A

**Degree transfer**
Successful completion of this course guarantees you entry into our degree transfer program, UniLink Information Technology, or if you have achieved a credit average (65% or better) and would prefer to start your bachelor degree in Multimedia or IT, you can apply for entry into first year of: Bachelor of Information and Communication Technology (ICT), Bachelor of ICT (Network Design and Security), Bachelor of ICT (Games Development), Bachelor of Business Information Systems, Bachelor of Multimedia (Business Marketing) or Bachelor of Multimedia (Games and Interactivity)/Bachelor of Science (Computer Science and Software Engineering).

**Career opportunities**
Graduates may look forward to a career in database administration, electronic publishing, information architecture, internet systems development, online entertainment, multimedia application design, software development, network security, web design and more!

www.swinburne.edu.au/college

**Swinburne Foundation Studies (Information Technology/ Multimedia)**

**Campus:** Sarawak  
**Duration:** One year  
**Intake:** January, March, August

This program prepares you for further studies in IT and multimedia fields, such as information systems and multimedia integration. You will develop mathematics, communication, and multimedia design skills, and be introduced to areas such as microcomputer systems, computer programming, and digital imaging.

**Units include**
- English and Communications Skills
- Innovations and Change
- General Mathematics
- Information Technology
- Multimedia Programming 1 and 2
- Science/Engineering Mathematics A

**Ministry of Higher Education units**
The Malaysian Ministry of Higher Education requires Malaysian students to successfully complete the following compulsory subjects (Mata Pelajaran Wajib) prior to graduation, at no extra cost: Malaysian Studies, Islamic Studies/Moral Studies, Bahasa Kebangsaan.

**Pathways**
For students who have completed SPM/ O’ levels or equivalent qualification, this course provides direct entry into the degree courses at the Sarawak campus. You can also progress into Hawthorn pathways if you attain the requisite grades for UniLink and bachelor degree programs.

**Career opportunities**
With further study graduates may become equipped for careers in database administration, electronic publishing, information architecture, internet-systems development, online entertainment, multimedia application design, project management, software development, systems analysis, web design and more.

**Bachelor of Multimedia (Games and Interactivity)**

**Campus:** Hawthorn  
**Duration:** Three years  
**Intake:** February, August

This course focuses on the role of games in contemporary society. You will be equipped with the practical and creative skills needed to work in the rapidly evolving games industry or the broader multimedia sector (web, animation, digital video/audio). This course recognises the increasing convergence of games and other forms of media by complementing a core set of games-specific units with units drawn from the wider field of media and communications studies. This will broaden your skill set, as well as provide you with important contextual knowledge about how games are developing as a culture industry.

**Units include**
- Games in Society
- Interactive Games Structures
- Principles of Game Design
- Multimedia Interfaces
- 3D Animation
- Digital Video/Audio
- New Media
- The Telecommunications Revolution
- Issues in Electronic Media
- Information Society
- A Global Perspective
- Multimedia Applications
- Games and Interactivity Project

**Foundation Studies and UniLink**
are programs designed to prepare you for further study in Australia. See page 13 for details.

**University degrees**

**Career opportunities**
There is an increasing number of career opportunities for graduates in the rapidly developing games industry, particularly in areas focusing on interactive content creation, game design, interface design and rapid prototyping. Graduates will also be equipped to pursue a non-games career in the broader media, multimedia and communications sectors.

**Professional recognition**
Students are eligible for student membership of the Games Developers Association of Australia (GDAA). Graduates working in the games industry will be eligible for membership of the International Games Developer’s Association (IGDA), as well as the GDAA. Students and graduates will also be eligible for membership of the Australasian Interactive Media Industry Association (AIMIA).

**Bachelor of Multimedia**

**Campus:** Hawthorn  
**Duration:** Two years  
**Intake:** February, August

**Special entry requirements:**
A two-year post-Year 12 diploma or equivalent with an overall mark of 65% or above.

This course is ideal if you have prior tertiary-level studies, such as a diploma or equivalent. It incorporates a comprehensive approach to multimedia with a strong emphasis on practical skills and techniques, including web design/programming, animation and digital video/audio. Elective studies can be taken in IT, Arts and Commerce.

**Units include**
- Internet and WWW, Multimedia Design
- 3D Animation, Multimedia Technology
Career opportunities
This course equips graduates for careers in web development and animation, video production, 3D animation, information architecture, CD/DVD production, and multimedia project management. It would also be a suitable grounding for those interested in starting a multimedia business.

Professional recognition
Students and graduates will be eligible for membership of the Australasian Interactive Media Industry Association (AIMIA).

Bachelor of Multimedia (Business Marketing)
Campus: Hawthorn
Duration: Three years
Intake: February, August
This course provides comprehensive skills in the principles and practice of marketing along with the applied and creative aspects of multimedia production. An emphasis on e-business and e-marketing is complemented by a thorough grounding in the related practical areas of web development, video production and promotional CD/DVD authoring.

Units include

Career opportunities
Graduates are equipped for careers in e-commerce, website development, multimedia-project management, public relations, internet marketing, international marketing, consultancy, product/brand management, advertising and marketing research.

Professional recognition
Students and graduates will be eligible for membership of the Australasian Interactive Media Industry Association (AIMIA).

Bachelors of Multimedia (Games and Interactivity) / Bachelor of Science (Computer Science and Software Engineering)
Campus: Hawthorn
Duration: Four years
Intake: February, August
This double degree provides students with a broad range of multimedia production skills, combined with extensive skills in software engineering and development required to create games and interactive applications. You will gain theoretical and practical knowledge through a range of production-based teaching methods, and apply this knowledge to the development of games.

Units include

Career opportunities
Graduates will possess a highly desirable combination of creative multimedia and programming skills. Graduates may find employment in a variety of positions in the games industry as well as in the broader information and communications technology sector. Graduates may also find employment in areas such as web authoring for electronic publications and news broadcasts, computer authoring and information architecture, 3D animation, non-linear video production and interactive television.

Professional recognition
This course is accredited at the professional level with the Australian Computer Society (ACS). The program has been externally vetted by the ACS, ensuring it meets the highest standard of the profession and industry.

Bachelor of Multimedia (Media Studies)
Campus: Hawthorn
Duration: Three years
Intake: February, August
This course combines the study of media and communications policies, influences and practices with the applied and creative aspects of multimedia production, including web, 2D animation and digital video/audio. You get the broad coverage of a media/arts degree in conjunction with a hands-on approach to learning practical skills.

Units include
Multimedia Design; Internet and WWW; 3D Animation; User Experience Design; Video and Audio; Media Literature and Film: Text and Contexts; New Media: the Telecommunications Revolution; Radio Production; Information Society: A Global Perspective; Electronic Writing.

Career opportunities
Graduates may find employment in interactive content creation; journalism; public relations; communications research; advertising; information architecture; digital media production; website design; video production; animation and architectural visualisation.

Professional recognition
Students and graduates will be eligible for membership of the Australasian Interactive Media Industry Association (AIMIA).

Multimedia University Degrees

Take an interdisciplinary approach to Multimedia at Swinburne

www.international.swinburne.edu.au
In science, Swinburne continues its tradition of being directly relevant to industry. Our graduates are equipped with the comprehensive theoretical knowledge and practical skills needed for a rewarding scientific career.

Foundation Studies

<table>

</tbody>
</table>

This course equips you for further studies across a range of science and engineering-related areas such as civil engineering, mechanical engineering, aviation, biotechnology, photonics, or telecommunication and internet technologies. It will allow you to develop fundamental communication, IT and finite mathematics skills and to select foundation studies streams in areas such as physics, chemistry, biology, engineering and mathematics.

**Units include**
- English and Communications Skills
- Innovations and Change
- General Mathematics and Information Technology
- Science Engineering
- Mathematics
- Physics
- Chemistry or Biology

**Pathways**
- On successful completion of this program, students who have acheived a credit average (65 or better) and would like to commence their bachelor degree in a science discipline may apply for entry into first year. Alternatively, direct articulation into UniLink Engineering is available, see page 31 for details.

**Career opportunities**
- Successful completion leads to bachelor degrees in science, computer science and engineering and opens up a huge range of career opportunities. Just some of the possible professions for students who start with this foundation program include: automotive engineering, biotechnology, consumer electronics design, computer systems design, electrical engineering, investigation engineering, management, manufacturing, medicine, mining, network administration, photonics, robotics, telecommunications and transport.

This course provides education and training in a broad range of skills for the sustainable management of our natural resources.

**Units include**
- Biological Surveys, Plant Collection and Classification
- River Restoration Works
- Erosion and Sediment Control Measures
- Natural and Cultural Resources
- Faunal Population Management
- Map Production for Land Management Purposes
- Report Preparation
- Designated Area Management Plan

**Pathways**
- On successful completion of this course you may be able to gain exemptions in a number of Swinburne bachelor degrees. Take a look at our Pathways page to see how many exemptions you may receive.

www.international.swinburne.edu.au/pathways

**Career opportunities**
- The course provides opportunities for careers in the public and private sector in: forest/park/catchment management, ecotourism, environmental science research, revegetation/land rehabilitation, hydrography, irrigation/ground water management, environmental education.
Diploma of Horticulture
Campus: Wantirna
Duration: Two years
Intake: February, July

This course is designed to provide a broad range of academic and practical skills appropriate to the needs of the horticultural industry. It meets industry-identified competency standards, teaching skills that are required in the workplace.

Units include
- Propagation Plans, Workplace
- Occupational Health and Safety
- First Aid, Soil Analysis, Plant Identification, Pruning, Transplanting
- Machinery Operation, Plant Nutrition
- Garden Design, Horticultural Crops
- Environmental Work Practices, Plant Pests and Diseases, Weed Control
- Irrigation, Nursery Plants, and Practical Work Experience.

Pathways
On successful completion of this course you may be able to gain exemptions in a number of Swinburne bachelor degrees. Take a look at our Pathways page to see how many exemptions you may receive. www.international.swinburne.edu.au/pathways

Career opportunities
This course equips graduates for employment in an operational, technical, supervisory or management role. Graduates may find work in nurseries, parks and public gardens, and a range of other areas within the horticultural industry.

Professional recognition
Eligible for membership of peak industry body horticultural organisations.

Diploma of Laboratory Technology
Campus: Hawthorn
Duration: Two years
Intake: February

This course provides competency-based scientific and technical education with a very strong practical emphasis on biotechnical laboratory-related workplace skills. You will learn to use typical scientific analytical instrumentation, apply chemical and biological procedures, including industry-related aseptic and sterile procedures, occupational health and safety, and the underpinning scientific knowledge and principles. You will develop current industry practice skills and knowledge in biotechnology and other modern laboratory sciences, such as tissue culture, and chromatographic techniques.

Pathways
Successful graduates of this course may obtain exemptions of up to nine units of study in the Bachelor of Science (Biotechnology) or up to six units of study in the Bachelor of Science (Biochemistry and Chemistry).

Units include
- Tissue Culture, Chemistry, Biochemistry, Biology, Microbiology, Histology, Quality Systems, Laboratory Computing, Biotechnology, Data-handling and Statistics, and Occupational Health and Safety in Laboratories, Workplace Communications, and Teamwork.

Career opportunities
Technical support staff to scientists in research, education and industry.

Michaela Stein
Diploma of Horticulture from Germany

“This course was the perfect choice for me; it covered everything I was interested in, from landscape design to plant health and irrigation. The teachers are great; always helpful and able to combine studying with a fun teaching environment. I didn’t know that studying could be so much fun. I love to work outdoors and constantly learn new things.”

Bachelor of Health Science (Public and Environmental Health)
Campus: Hawthorn
Duration: Three years
Intake: February, August

Public and environmental health is concerned with protecting the environment and the health of people living in it and involves monitoring, assessing, correcting, controlling, and educating as appropriate. Areas of key importance in this field include food safety, disease prevention, environmental hazards management, noise assessment, water and air quality. You will gain the knowledge required to understand the effects of the built environment, promote health and sustainability, and manage disasters.

Units include
- Law, Food and Water Science, Microbiology, Communicable Diseases Control, Public Health and Environmental Risks, Assessment and Management, Health Planning and Promotion, and Occupational Health and Safety.

Career opportunities
Graduates obtain diverse skills and are equipped for careers as environmental health officers, or in the areas of health promotion, policy development, communicable disease investigation, immunisation, sustainability or public and community health planning.

Professional recognition
Graduates are eligible for membership of Environmental Health Australia.
**Bachelor of Science**

**Campus:** Hawthorn, Sarawak *

**Duration:** Three years

**Intake:** Hawthorn – February, August

Sarawak – March, August

This course offers many possible study combinations, which enable you to tailor your science degree and develop a unique range of interdisciplinary skills. The course provides a flexible range of majors, co-majors and minors, allowing you to undertake a professionally focused program of study.

**Major study areas**

You will be required to undertake a major and either a co-major or two minors of your choice. Depending on your choice of major, you have the option of graduating with a Bachelor of Science or one of the following:

- Bachelor of Science (Biochemistry and Chemistry)
- Bachelor of Science (Biomedical Sciences)
- Bachelor of Science (Biosciences)
- Bachelor of Science (Biotechnology)*
- Bachelor of Science (Chemistry)
- Bachelor of Science (Medical Biophysics)
- Bachelor of Science (Medical Technology)

* Please note that the Bachelor of Science (Biotechnology) is the only Bachelor of Science program and associated major area of study available at the Sarawak campus.

**Biochemistry and Chemistry:** biochemistry is the study of molecules of life, their structure and roles in the processes of animals, plants and micro-organisms. It has applications in all areas of life where an understanding of the molecular basis of biology is important; from nutrition and agriculture through to medicine and psychology.

**Biomedical Sciences:** this major covers specialist theoretical and practical study of the functional aspects of the human body, as well as study of the modern instrumentation and technology required in clinical care and other monitoring environments. It provides graduates with the skills to work in the healthcare sector, medical technology, research laboratories or sports medicine fields.

**Biosciences:** this major provides you with the knowledge and skills to work in medical and biomedical science areas. Through studies in chemistry, biochemistry, human physiology, introductory microbiology and genetics you will be prepared for work in a variety of biomedical jobs. The practical material on the biological sciences will ensure you of a career involving experimental procedures.

**Biotechnology:** this major provides in-depth studies of the sciences that underpin biotechnology: biochemistry, chemistry, microbiology and molecular biology. It also provides flexible options that allow you to take major studies in chemistry, environmental science or other areas by negotiation. Graduates are equipped for careers in biotechnology-related industries from nutrition and agriculture or chemical and environmental industries through to medicine and forensic science.

**Chemistry:** chemistry is an enabling science and also a discipline in its own right. It involves the fundamental study of how molecules react as well as the applied study of how we can detect and use them. The applications of chemistry are far reaching and include polymer formation, water analysis, new materials, agricultural chemistry and environmental science.

**Environmental Sustainability:** this major applies the principles of sustainable development to address the causes of environmental hazards. Understanding the relationship between local, global, social and ecological issues and the responsibility of the different groups in sustainability is a key component of this professional major, together with developing the scientific skills to address environmental sustainability in the future.

**Medical Biophysics:** together with substantial mathematics and physics, this biophysical understanding prepares students for work in many hospital departments as the interface between patient and instrumentation. In addition, the medical electronics component enhances understanding of modern monitoring technology. All of this material is then put into the context of human physiology from cells to systems.

**Medical Technology:** through studies in physiology, chemistry, biochemistry, introductory microbiology, molecular biology and genetics you will be prepared for work in a variety of medical science-related positions. A diverse range of career options in medical technology fields will be available to you. The practical material in the course will further enhance your career prospects.

**Career opportunities**

You will have a wide range of career options in science and technology, depending on your area of specialisation. For more detail, please see the specialisation descriptions on this page.

**Professional recognition**

All graduates may apply for membership of the Association of Professional Engineers, Scientists and Managers. Graduates who have studied the biotechnology major may apply for membership of the Australian Society for Biochemistry and Molecular Biology (ASBMB). Graduates who have studied the chemistry or biotechnology major may apply for membership of the Royal Australian Chemical Institute.
Apply now!

Follow these steps carefully to ensure your application is processed properly. If you need assistance with your application you can email our application adviser: international@swinburne.edu.au. Alternatively, you can visit a registered Swinburne representative in your home country. For a list visit www.international.swinburne.edu.au/contact/representatives

STEP 1
Choose the course that suits your interests and career goals

- See pages 20–48 for the Undergraduate and TAFE courses.

STEP 2
Complete the application form

- The application form is located at the back of this course guide.
- If you are applying for Credit, you must complete the Credit Transfer section on the form.
- Please note a non-refundable A$60 application fee is payable. The fee can be paid by credit card, a bank draft or a bank cheque. Details are included on the application form.

STEP 3
Attach the relevant documents to your application form

- Relevant documents include:
  - Certified copies of all your academic transcripts (with grading system) and testamurs. If your documentation is in a language other than English, an official certified translation must be provided.
  - Details of work experience, if applicable.
  - Certified copies of English proficiency test results (IELTS test score or equivalent), if applicable.
  - Course or unit syllabus, if you are applying for Credit.

STEP 4
Read the student enrolment and tuition fee policy

- Available at www.international.swinburne.edu.au/feepolicy

STEP 5
Submit your application form and required documents

- Fax, email or mail the completed application form along with the required documents to your registered Swinburne representative, OR:
  - Swinburne International
  - PO Box 218
  - Hawthorn VICTORIA 3122
  - Australia
  - Email: international@swinburne.edu.au
  - Fax: +61 3 9818 3648

STEP 6
Receive your offer

- Swinburne will assess your application. If you are successful you will receive a formal offer, via email.
- Swinburne will provide a provisional offer if only provisional exam results are provided. A formal offer can only be issued once final exam results are received.

Applying for Credit

What is Credit?
Credit is the granting of recognition for previous study and/or experience, in the form of exemption from certain course/program requirements. This term tends to be used interchangeably in Australian universities with the terms Recognition of Prior Learning (RPL), advanced standing and/or status.

How to apply
Submit a course or unit (subject) syllabus or other evidence of skills with your application for admission and indicate on the form that you are applying for Credit. If you are applying for Credit in a design program you will need to submit a portfolio. For submission guidelines visit www.international.swinburne.edu.au/apply/undergraduate and check the relevant course. Your application will be assessed, and if successful, you will receive advice in your letter of offer. If the Credit is conditional, you must provide evidence that you have satisfactorily met the condition(s) prior to or at the time of accepting your offer. The course duration shown in your letter of offer will reflect the amount of Credit granted.

If you do not request assessment of Credit when you submit your application, you must normally request assessment within two weeks of commencing the course. Applications made after this time may not be approved. All applications must be approved by your faculty or school.

Accepting your offer
If your application is successful, you will be made an offer. The offer will indicate:
- the course you have been offered
- the annual tuition fee payable
- the course commencement date
- the deposit to be paid
- the amount of Overseas Student Health Cover (OSHC) payable
- any conditions attached to the offer
- any additional information relevant to your course

Your offer will provide you with a step-by-step guide to accepting your offer for study at Swinburne. You can look at this now at: www.international.swinburne.edu.au/accept
Applying for your student visa

If this is your first application for a student visa and you are from an Assessment Level (AL) 1 or 2 country, Swinburne International (SI) will send your electronic Confirmation of Enrolment (CoE) to you upon receipt of your course acceptance and total deposit.

If this is your first application for a student visa and you are from an AL3, AL4 or AL5 country, you must provide a favourable Pre-Visa Assessment (PVA) letter before SI can issue your CoE.

If you are offered two or more courses (a packaged course) at Swinburne, a CoE will be generated for each offer you accept. All CoEs must be provided to the Department of Immigration and Citizenship (DIAC) or the Australian Diplomatic Mission where you apply for your student visa.

Students from some countries may be eligible to apply for an e-visa. Check the DIAC website www.immi.gov.au for details and to confirm your Assessment Level.

If you hold a current student visa, Swinburne will send your CoE to you upon receipt of your course acceptance.

Please note that your visa will be issued for the particular course(s) that you have accepted. If you change your course you must obtain a new CoE from Swinburne.

English requirements

Students from AL3, AL4 or AL5 countries will be required to take an IELTS test, regardless of whether they meet the Swinburne requirements by other means.

Visit the DIAC website www.immi.gov.au to determine which Assessment Level your visa falls under.

Students under 18

If you are under the age of 18, your parents must nominate a guardian who resides in Australia for you before DIAC will consider your student visa application. DIAC requires your guardian to be over 21 years old, related to you and of good character.

Students who are under the age of 18 will only be permitted to study certain programs at Swinburne College. If they do not have a DIAC-approved relative with whom they will reside in Australia, they will need to engage a Swinburne-approved care provider and will have accommodation restrictions. Places may be limited depending on the availability of suitable accommodation options.

Students with families

If you plan to bring your family to Australia, please check beforehand with DIAC or the nearest Australian Diplomatic Mission regarding the restrictions on doing so. If you are in AL3 to AL5 and your course duration is less than 12 months, your family will not be allowed to accompany you to Australia. You will also need to provide proof of Overseas Student Health Cover (OSHC) membership for your family.

If you have children between five and 15 years old, and are bringing them to Australia, you must enrol them in school. Full fees are payable at both government and non-government schools.

However, dependents of Swinburne’s postgraduate research students will receive full exemption from tuition fees in Victorian government primary and secondary schools.

For a complete listing of Victorian primary and secondary schools visit: www.eduweb.vic.gov.au/SchoolsOnline

Costs, application and enrolment information for government, primary and secondary schools may be found at: www.study.vic.gov.au

Applications to non-government schools must be made directly to the school of your choice.

Please note that your student visa assessment criteria may change if your family is accompanying you.

Overseas Student Health Cover (OSHC)

It is compulsory for all student visa holders, and their dependants, to maintain OSHC throughout their course of study.

The Australian Department of Health and Aged Care has advised that the following students do not need OSHC: Norwegian students insured under the Norwegian National Insurance Scheme (NIS), and Swedish students with health insurance provided by CSN International (the Swedish National Board of Student Aid). If you have one of these types of insurance, please include evidence with your application.

It is a condition of your student visa that you maintain current OSHC for the duration of your visa. If you need to extend your OSHC (e.g. you fail some units and need to extend your time here), it is your responsibility to do this directly with the OSHC provider and provide evidence of this to SI before a CoE can be issued to enable you to apply to extend your student visa.

We will arrange your program-length OSHC membership with our preferred provider, OSHC Worldcare, and will include the OSHC payment in your initial deposit indicated in your letter of offer, which you pay when you accept your offer.

Program Length Cover OSHC is a once-only payment that provides rate protection for the duration of the cover. This means that even if OSHC premiums increase during the time of your Program Length Cover, you do not have to pay any increase. If you need to extend your program for any reason, it is your responsibility to extend your OSHC.

For further information, visit www.international.swinburne.edu.au/arrival/health-cover

Your rights and responsibilities

To view the full Swinburne refund policy, visit www.international.swinburne.edu.au/refund

For information about the grounds by which your enrolment may be deferred, suspended or cancelled, visit www.international.swinburne.edu.au/enrolment-change

The Educational Services for Overseas Students (ESOS) Act regulates the education and training sector’s involvement with overseas students studying in Australia on student visas. You can view a description of the ESOS framework at www.international.swinburne.edu.au/esos-framework
If you are a permanent resident, or citizen of Australia or New Zealand you cannot apply using this form. VCE students should apply for Undergraduate courses through VTAC. For further information go to www.vtac.edu.au. VCE students wishing to apply for TAFE courses should use this form.

Read this application carefully, complete all sections and ensure that supporting (certified) documents are attached. Applicant’s declaration

1. I declare that the information submitted with this application is true and complete. I further declare that any tertiary academic results submitted are a complete record of all results I have obtained from every tertiary institution I have attended.
2. I acknowledge that failure to disclose my academic record may result in the University revoking an offer or terminating my studies at any stage.
3. I authorise the University to seek verification of my academic and professional qualifications, and work experience. I understand that the University reserves the right to inform other tertiary institutions and regulatory agencies if any of the material presented to support my application is found to be false.
4. I understand that at the time of enrolment I will be required to supply originals of all documents used to support this application.
5. I understand that the personal information I have provided may be released to government agencies as required by law. I further understand that it may be disclosed to third parties for the purpose of progressing my application.
6. I understand that the personal information I have provided may be released to government agencies as required by law. I further understand that it may be disclosed to third parties for the purpose of progressing my application.
