

Module 6 - Curriculum design

Author: Lisa Thomas

Year: 2017

Hi, I'm Dr Lisa Thomas, Head of the Academic Development and Recognition team at the University of Wollongong.

Working with colleagues, Drs Kathryn Harden-Thew, Bonnie Dean and Janine Delahunty, we have developed the Curriculum Design Foundation module.

The outcomes you'll work towards by participating in this module include:

- Developing an understanding of different approaches to designing curriculum
- Reflecting upon your current practices, and
- Beginning to apply your knowledge of curriculum design to your context

We have created a module that we hope you'll find truly engaging as you are introduced to key topics related to curriculum design, and are encouraged to participate in activities that will support application of the information into your own practices. We offer a lot for you to think about in terms of how this module can truly and positively impact your approaches to curriculum design. Along the way, we strongly encourage you to keep a record of your ideas and responses to the activities for future development and application.

We hope you enjoy and learn a lot from the Curriculum Design Foundations module.
