Title: Alex's next gen story
Creator: Swinburne University of Technology
Year: 2022

Audio/video for this transcript available from: <http://commons.swinburne.edu.au>

ALEX: Here we are at Central Gardens, one of my favourite spots. Really peaceful if you look around here. Sometimes I get a bit of, I'll say, good study doing assignments and it refreshes my mind. Something like that. Now here I am doing the same thing today. I always get my latte from Axil. Best coffee in the area.

Hi, my name is Alex. I'm also known as Khant Min Kyaw. I'm from Myanmar. I'm studying a Bachelor of Business majoring in finance. What I like most about my course is the tutors and the lecturers. They're making sure that we understand and we get an idea of what we need to do to move forward. I am looking forward to the industry experience. I'm looking forward to the internships, work placements with real companies in the finance industry.

I have learned a lot from the group projects, especially the recent one where we had to analyse how Qantas had coped with COVID. They want us to think like an analyst. To see if a company is worth investing in the future or not. It includes research with classmates, great discussions back and forth. We got to pitch our own ideas, that was pretty fun.

I am a student ambassador at Swinburne University. I am also the president of the Burmese Student Association, as well as an environmental representative for the Student Union. I've also just joined Beta Alpha Psi, where we usually focus on networking events and also workshops. Being president of the Burmese Association is an honour for me. We just did a fundraiser the other day. It was the biggest fundraising event that we've done at Swinburne.

My future plans are to get an internship at a financial corporation or get a work placement at one of the well-known banks. Swinburne is a next gen university because it's such a supportive university.
